BOILER AND STOKER EQUIPMENT BOUGHT

City Water and Light Plant Contract Awarded by Council to Heine Boiler Company

COMBINED PRICE, $21,685

Final Resolution Calling For Paving of Alley Near Howell Bros., Is Passed

A contract for a new boiler and stoker equipment for the city water and light plant was awarded to the Heine Boiler Company of Cincinnati, at a midnight session of the city council held Tuesday night.

Bids were received from several concerns, and the entire evening was spent with the representatives of the companies in going over the specifications and merits of the proposals.

The session lasted until after midnight, when the council voted four to one in favor of the Heine concern, whose bid included a complete job of stoker, boiler and accessories for $21,685. Some firms submitted bids on separate items.

Among other business that came before the councilmen wa sthe passage of a final resolution calling for the paving of the alley just west of Howell Brothers shop. No one filed a remonstrance against the improvement, and the council will receive bids on December 6, the next meeting. With a week of good weather in December the paving can be completed, it was stated, as the alley to be paved is only a bolck in length, extending froh First to Second streets.

No one filed a remonstrance against the primary assessment roll for the sidewalk in Harison street between Eleventh and Thirteenth tsreets and the council ordered the assessments transmitted to the city treasurer for collection.

Seven firms were represented with sealed bids at the session, and each firm was represented in person with two or more salesmen. After the bids were opened and tabulated, each firm was given an opportunity to appear before the council for a private session and tell of the good points and answer questions concerning his proposals.

The councilmen spent the rest of the evening in this manner, and after each had been heard, a vote was taken, and the decision favored the Heine concern.

The boilers at the plant now in use were installed by the Heine company and some of them have been in constant use for 17 years. The capacity of the new unit will be 500 horse power. The stoker equipment is of the latest improvement, it was stated.

With this added unit, it will pave the way for the installation in the near future of another electrical unit or turbine, to relieve the load which now exists in this department of the plant.

The new unit will be installed and placed in operation in the early spring. The cost of the work will not be paid by bonds, or taxation, but with the earnings from the plant within the next year.

The firms submitting bids on the equipment were as follows: Henry Vogt Machine Company, Louisville,

PHONE STOCK $515 A SHARE

Brings Fancy Price at C. H. Tompkins Auction Sale

A large crowd of people attended the auction sale of C. H. Tompkins, who is closing out his stock of second-hand automobiles and household goods preparatory to moving to California.

Two shares of stock in the Rushville Co-operative Telephone company sold this afternoon for $1,030, or an average of $515 a share, going to Owen L. Carr after spirited bidding.

The sale got under way at ten o'clock this morning and it was doubtful whether all goods would be sold by late afternoon, Clem Miller was the auctioneer.

JOHN T. KIRKPATRICK, 79, IS STRUCK BY AUTO

Rushville Man Suffers no Broken Bones, But Injuries May Prove Serious Due to His Age

HARRY TILLEY RECOVERING

John T. Kirkpatrick, 120 East Eighth street, was painfully injured Tuesday night when he stepped in front of an automobile driven by Alvin Lawson, RFD 8, at the corner of Seventh and Main streets.

Mr. Kirkpatrick, who is past 79 years of age, spent a restless and nervous night, and because of his age the accident is of a serious nature. No bones were broken, but he suffered many bruises and cuts about the body.

Details concerning the accident were being gathered by the police, who were called to conduct an investigation.

Harry Tilley of Indianapolis, who was injured in an automobile wreck Sunday, November 6, on the road south of Rushville and near New Salem, is slowly showing signs of recovery at the Dr. Sexton hospital, it was stated today by Dr. M. C. Sexton.

Mr. Tilley suffered a concussion of the brain, when a machine telescoped his car which was parked along the roadside, when the lights went out for some cause, and he was attempting to repair them. For several days following the accident he remained unconscious, but recently shows improvement, although the outcome of his injuries is still in doubt. The blow which he suffered on the head was of such a nature that may affect his mind permanently, unless he responds to the treatment more readily than he has been in the past few days, although his condition is regarded as satisfactory, even if it is showing slow gains.

GOVERNMENT TO PUNISH MISSING KEY WITNESS

Court Order Calls For Seizure of H. M. Blackmer's Property—Disregarded Subpoenas

OIL TRIAL DEVELOPMENT

Washington, Nov. 16—(U.P.)—The government today set out to punish H. M. Blackmer, missing key witness in the Fall-Sinclair oil trial.

A court order issued here called for seizure of his property under the Walsh law and for Blackmer's appearance here in January to tell why he should not be adjudged in contempt of court and forfeit $100,000 property for failing to heed subpoenas in the oil trial.

Meantime, Senator Walsh, dem., Montana, original investigator of the oil scandals, announced plans for introducing legislation designed to open the lips of M. T. Everhart, son-in-law of former Secretary of Interior Fall. Through Everhart's testimony—hitherto withheld on the plea that it might incriminate himself—the government hoped to trace definitely the $230,500 in Liberty bonds allegedly passed by Harry F. Sinclair to Fall soon after the Dome lease was granted Sinclair.

Walsh proposed that the president be authorized to grant a presidential reprieve whereby Everhart would be free from any prosecution should his testimony prove incriminating.

Other developments today in the grand jury investigation of an alleged conspiracy to tamper with the Fall-Sinclair jury were:

Owen Roberts, government counsel, went on a mysterious trip with William McMullin, government spy, who told of an alleged plot among Burns detectives to "frame" mistrial evidence.

The grand jury recessed two days, pending arrival of records needed to round out the government case before the jury decided whether indictments or no true bills are to come from its labors.

The courthouse was clear of Burns agents today for the first time in two weeks. William [illegible] Burns, noted International detective also was gone with his sons, W. Sherman and Raymond. They were excused along with the agents without bond.

THREE ARRESTED FOR LIQUOR LAW VIOLATIONS

Marold Holt, Curt Nay and Raymond Finney in Jail Pending Arraignment On Charges

ONE CARRIED REVOLVER

Three arrests for liquor law violations were made Tuesday night by Sheriff Coons, and all three were held in jail today pending arraignment on hearges to be filed by Prosecutor George.

Those arrested are Harold Holt, Curt Nay and Raymond Fineny. According to the officers, Holt was arrested for being intoxicated, and a charge of selling liquor will be placed against him. Nay was arrested for having a portion of a bottle of liquor in his possession, and he is said to have told the officers that he purchased it from Holt near the Big Four depot.

The sheriff, accompanied by Patrolman Blackburn and Deputy Sheriff Alex Coons, went to the depot and found Finney there, with a bottel of liquor in his possession, and when he was searched a loaded automatic revolver was found, which will make an additional charge against him, according to the officers.

Holt and Nay came here from near Madison and have been employed on a farm northeast of Rushville. The officers have suspected Holt of being engaged in the liquor traffic, they stated, and were watching for him Tuesday night.

DENVER VOTES TO MODIFY

Democrat Elected to Congress On A "Wet" Platform

Denver, Colo., Nov. 16—(U.P.)—Denver has gone on record as favoring modifications of the Volstead law.

Complete returns in yesterday's election today showed S. Harrison White, democrat, former state supreme court justice was elected to congress—on a "wet" platfrom—by 4,270 votes over state senator Francis J. Knauss. The election was to fill the unexpired term of the late William N. Vaile.

Complete returns gave White 32,177 votes and Knauss 27,457 votes. Two Independent candidates, George Kindel and Huston M. Marrs, polled less than 3,000 votes.

The election closed a bitter campaign which began when the democratic convention here went on record favoring modification of the Volstead act, and chose White as their candidate.

ORDERED TO LEAVE STATE

Newcastle, Ind., Nov. 16—(U.P.)—Robert Gilbert, 26, bus driver, arrested here following a series of alleged incendiary fires, is under orders today to leave the state of Indiana. There apparently was not enough evidence to convict Gilbert as a "fire bug" so when he was brought before Judge J. R. Hinshaw in Henry circuit court, the judge ordered him to leave the state. No fires have occrred since Gilbert's arrest.

ASKS SECRETARY OF LABOR BE CALLED

George Remus, on Trial for Murder of His Wife, Seeks to Expose Plot to Deport Him

WANTS IMMIGRATION RECORDS

Charges Mrs. Remus and Franklin L. Lodge Entered into Conspiracy While He Was in Prison

Court Room, Cincinnati, O., Nov. 16—(U.P.)—George Remus, on trial charged with the murder of his wife, Imogene, today moved to subpoena James J. Davis, Secretary of Labor, so that immigration records could be introduced in defense of the former king of bootleggers.

Judge Chester R. Shook, after lengthy debate between Remus and and Charls P. Taft II, county prosecutor, overruled the motion as being "unnecessary and beyond the jurisdiction of the court."

Remus asked hat Secretary Davis be directed to appear with "the entire lle of defendant in the department of labor, bureau of immigration, introducing therein especial reference to the honorable secretary of certain anonymous letters relating to the defendant."

In explaining his motion Remus said that if the records were brought into court he could prove that Mrs. Remus and Franklin L. Dodge, former operative of the department of justice, conspired to have him deported.

When Taft opposed the motion, Remus roared "the prosecutor should try to get all the evidence, not merely that beneficial to his own side of the case."

"It is quite evident" Taft observed quietly, "that the only reason for the motion was to give Re-

LIBERTY WIDOW IN A GENERAL DENIAL

Mrs. Margaret Smith Testifies She Gave No Medicine to Husband Except That Prescribed

NO INFATUATION FOR DOCTOR

Liberty, Ind., Nov. 16—(U.P.)—Testifying in her own defense today, Mrs. Margaret Smith, charged with the murder of her husband, George Smith, by poisoning, told a jury in Union circuit court she never gave her husband any medicine during his last illness except that prescribed by Dr. H. W. McCreary, the family physician.

The widow declared that so far as she knew there was no asrenic in the Smith home at any time preceding or during her husband's illness. It has been the contention of the state that Smith died of arsenic poisoning.

"I never had any infatuation for Dr. McCreary," Mrs. Smith testified. The prosecution has adcanced as a motive for the slaying an attraction between the doctor and the widow. She testified that she had never written threatening letters to the doctor regarding attentions he is alleged to have paid a Liberty woman, nor wrote letters to herself. She said she had received letters containing threat and had showed them to Dr. McCreary.

Ilene Smith, 15, daughter of the accused woman, also was a witness today, testifying that her father and mother had not quarreled within her memory of conditions in the home.

It appeared likely late this afternoon that the case would be in the hands of the jury tonight. It is planned to hold a night session for closing arguments and instructions by the court, as the defense intends to close with the testimony of Mrs. Smith, while the state will call only two or three witnesses in rebuttal.

75 CHILDREN ARE RESCUED

Escape Form Mt. Mercy Academy, Grand Rapids, Within Five Minutes

Grand Rapids, Mich., Nov. 16—(U.P.)—Seventy-five children were rescued within five minutes after fire broke out in the main building of Mt. Mercy academy early today.

Awakened by smoke, Sister Leone cried an alarm and led 42 other nuns to the children's dormitories on the top floor.

Thirty babies, asleep in their cribs, were gathered into the arms of nuns. The other nuns roused the older children and marched them, without confusion, down a stairway. They were taken in their night clothes to an adjoining building.

Originating in the basement from defective wiring, the fire caused $75,000 damage. Many prizes possessions of theacademy, including a gold harp, were destroyed.

The Weather

INDIANA — Mostly cloudy tonight and Thursday. Probably rain in extreme south portion tonight. Slightly colder tonight.

TOTTERING BUILDINGS ADD TO RESCUE HAZARD

With Two More Bodies Recovered and 30 Missing, Search Continues In Pittsburgh Ruins

26 BODIES ARE RECOVERED

Pittsburgh, Pa., Nov. 16—(U.P.)—Encouraged by the discovery of two bodies during the night, the army of rescuers pushed forward with renewed vigor today to extract the dead from the debris of Pittsburgh's fatal gas explosion.

The bodies recovered stood at 26 today. The missing numbered more than 30 and 95 injured were still detained in hospitals.

Led by Charles A. Gray, a rescue squad which for two days has concentrated its efforts on the ruins of the Pittsburgh Clay Pot company, adjoining the exploded tanks of the Equitable Gas company, penetrated the lower levels of the building where the bodies of the 25th and 26th men were found.

"Our first aim is to account for all the dead and missing," county coroner W. J. McGregor said. He has spent much time in the explosion area. "An intensive investigation into the cause and responsibility of the blast will not be made until the rescue work has ended."

Tottering buildings added to the hazardous conditions under which rescuers worked.

All wrecked buildings in the district were being inspected by officials of the city department of public works and all unsafe structures were ordered razed. Repair work was going forth on slightly damaged dwellings on the ringe of the wasted plot.

EIGHT OBJECTIONS TO REOPENING HIS CASE

E. S. Shumaker, Superintendent Of Anti-Saloon League, Files Plea With Supreme Court

GILLIOM TO STUDY THEM

Indianapolis, Nov. 16—(U.P.)—Eight specific reasons for objection to further hearings in his contempt of court case were contained in papers filed with the Indiana supreme court today by Dr. E. S. Shumaker, superintendent of the Indiana Anti-Saloon league.

Attorney General Arthur L. Gilliom was about to leave for Washington when the brief was filed. He said he would study the objections upon his return next week.

Six of the eight points offered by Dr. Shumaker were so highly technical that newspapermen scurried around in search of lawyers to interpret them. The seventh asks dismissal of the motion to reopen the case on the ground that no showing has been made that his alleged later contemptuous conduct was in the actual or constructive presence of the court. The eighth demands that his sentence of six months on the Indiana prison farm and$250 fine be revoked because of his inability to determine the nature of the charges brought against him in the original trial. He says his attorneys were unable to provide an adequate defense because of lack of this knowledge.

ROLL CALL SLOW GETTING A START

With Four Days of Membership Campaign Gone, Only $79 is Reported by Workers

ONE SUSTAINING MEMBER

Herbert Hoover Says Five Million Members Should be Minimum of Expression of Confidence

With the Red Cross Roll Call having yielded only seventy-six members today after four days of the campaign had elapsed, the Kappa Sigma sorority, in charge of the Roll Call, made an appeal for a more ready response from the people of Rush county.

The local chapter retains a generous share of the money derived in the membership campaign, and already the local chapter is devoting some of this to local purposes in the employment of a county health nurse who has begun the physical examination of school children.

The only report made in the Roll Call up to today showed thirty-nine members enrolled at $1 each. Today's report disclosed twenty-seven more members and a contribution of $10 from the Norris Fertilizer company, which makes the concern a sustaining member of the Rush county chapter.

Individual members reported today were as follows:

Mrs. Marian Wilson, Mrs. Anna Dearinger, Elsbury Pea, Howell Bros., Simeon Stewart, Sharp's Meat Market, Alvin Shaw, Robert W. Pierce, Mrs. Herbert C. Flint, Link Guffin, J. E. Gantner, Mrs. Carolyn Chamberlain, Pearl Leach, Mrs. Homer Powell, Homer Powell, Mrs. Bertha Blount, Mrs. Anna C. Moses, Will J. Leach, Miss Lenora Owen, Miss Anna Bohannon, Miss Mary Williams, Miss Elga Thomas, Walter Coooway, Rev. Gibson Wilson, Mrs. Minnie Williams, Elmer Bohannon and Helen Spivey.

Secretary of Commerce Herbert Hoover, who directed the relief operations of the American Red Cross and the agencies of the government in the Mississippi Valley floods, declares that "five million members should be the very minimum of the expression of the confidence of the people in their Red Cross."

In a statement, calling for membership support of the Red Cross, Secretary Hoover says:

"The American National Red Cross is charged by the Congress of the United States with the responsibility of continuing and carrying on a system of national and international relief in time of peace and of applying the same in mitigating the suffering caused by pestilence, famine, fire, floods, and other national calamities and of devising and carrying on measures for preventing the same.

"If the American Red Cross had not already given conclusive proof in the past decade of its ability to fulfill these obligations, it amply demonstrated its fitness to serve as the Nation's agency for providing the services of rescue and relief in disaster during the months the Mississippi river, and its tributaries,

JOHN CHARLES TITSWORTH DIES

Little Son of Mr. and Mrs. John A. Titsworth Seriously Ill a Week

John Charles Titsworth, little son of Mr. and Mrs. John A. Titsworth, died Tuesday night about six o'clock at the family home, 729 North Perkins street after a serious illness of a week. The child would have been five years old next Tuesday.

The deceased had been in poor health for several months, and underwent an operation several weeks ago in an effort to regain his health, but grew worse during the past week. In addition to his parents, he is survived by two half-brothers, Russell B. Titsworth and Harold Titsworth, of this city and a half sister, Mrs. Gladys Pearcey of Hillsdale, Mich.

Funeral services will be held at the late residence Friday morning at ten o'clock, in charge of the Rev. B. F. Cato, and burial will be made in East Hill cemetery.

15 MILLION BUSHELS ARE ADDED TO CORN ESTIMATE

Favorable October Weather Responsible For Imporved Condition Of Crop In Indiana

POTATO YIELD IS GOOD

Lafayette, Ind. ,Nov. 16—(U.P.)—Fifteen million bushels of corn have been added to the Indiana corn crop estimate owing to extraordinary weather during October, it has been announced by the department of agricultural statistics of the Purdue experiment station. The estimated yield has been placed at 31 bushels per acre, or an increase of 3.7 bushels over last month. The increase in the estimate represents corn that cured much better than expected during October rather than an actual increase in production. It is indicated that while little of the corn is soft or in danger of spoilage, much of it is chaffy and of very low feeding value. Stocks of old corn on farms are estimated at 12,107,000 bushels compared to 20,323,000 last year and the ten year average of 9,353,000 bushels.

Potatoes are reported very good, the yield proving higher than expected as digging progressed and the quality exceptionally good.

Soybeans are making satisfactory returns this years, and the favorable harvest weather this year makes a striking contrast with that of the two preceding seasons when much loss occured after cutting.

Apples are estimated somewhat below last month and the quality of the crop is the poorest for several years.

Production of creamery butter in Indiana for September was 4,805,700 pounds. Demand for farm labor declined last month, according to the report.

LET'S SETTLE THIS TIRE QUESTION NOW

Most maufacturers claim to have "the better tire." They're sincere.

The tires of 1927 are better, of course, than the tires of 1907 and 1917. It's to be expected that the tire of 1937 will be better still.

But the man buying a tire today wants to know, "What's the best tire on the market NOW?"

Everybody tells him: "I've got it — a bargain." "Here it is —with a special discount." Claim upon claim, inducement on inducement.

Yet, after all, the intelligent buyer will always bank on this "preponderance of the evidence," as the lawyers call it:

MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

The reason for this is plain. Goodyear Tires have made good. They are supreme on the road, where performance is the only judge.

Goodyear keeps this leadership unchallenged because — Goodyear makes the World's Greatest Tire —

Goodyears out-perform any other tires;

Goodyears sell at fair prices without "bargains," "discounts" or cuts in quality;

Goodyears are backed by a standard, friendly, expert service —the kind we give you here.

Every customer we have will vouch for these statements about the Goodyear Tires we sell.

It will be a pleasure to show you the new Goodyears and demonstrate our service.

mus the chance to make a speech."

"I understand the prosecutor knows where Franklin L. Dodge can be reached," Remus continued. "I ask that the sheriff be told Dodge's address so that the latter may be served with a defense subpoena."

The court again ruled against Remus who cried out that the prosecution was concealing witnesses.

Dodge has been accused by the defendant of stealing the love of Mrs. Remus and conspiring with her to rob Remus of his huge bootleg fortune.

Selection of a jury continued and shortly afterwards for the first time 12 talesmen composed of eight men and four women were in the box.

The state withdrew one however, and the attorneys set to work to find a successor.

Remus lost still another point when Taft put the following question to a juror: "The court will charge you that there are three tests of insanity the jury must follow in this case. Will you follow them rather than any preconceived idea of your own?"

Remus argued there were many tests of insanity and that three would be too restrictive.

Just before luncheon recess was declared, the original panel of 75 was exhausted.

RELIEVED OF ACTIVE DUTY

Washington, Nov. 16—(U.P.)—Col. Charles Lindbergh, who was recently ordered to active duty as a member of the army reserve at Selfridge flying field, Michigan, until December 31, was today relieved of such duty at his own request. Lindbergh said other matters had arisen changing his plans, according to the war department.

YOU HAVE TO BEAT RUGS TO GET THEM CLEAN
THIS CUTAWAY VIEW SHOWS THE PATENTED AGITATOR WHICH ENABLES THE HOOVER TO BEAT AS IT SWEEPS AS IT CLEANS

NOTHING very new about that, is there? You've heard it a thousand times. If you've ever kept house you know it's true.

In The Hoover beating, instead of being concentrated in a few violent strokes as with carpet-beater or broom, is modified into a series of swiftly repeated air-cushioned taps. This is accomplished by means of a totally new appliance—the exclusive and patented Hoover Agitator illustrated here.

Suction lifts the rug off the floor and floats it on a cushion of air while the Agitator gently flutters out all the embedded grit.

Then strong suction draws all this dirt into the dust-tight Hoover bag.

Simple, isn't it? Efficient, too. "You have to *beat* rugs to get them clean."

The difference between The Hoover and a vacuum cleaner is that The Hoover *does* beat them—"Positive Agitation" being a feature of the celebrated Model 700 Hoover and of the lower-priced Model 543 Hoover as well.

BIBLE THOUGHT —FOR TODAY—

Bible Thoughts memorized, will prove a priceless heritage in after years.

God's Confidence: The heaven, even the heavens, are the Lord's, but the earth hath he given to the children of men. Psalm 115:16.

Prayer: O Lord, help us to prove that we are trustworthy.

The "Little Black Boxes"

The announcement in the report of Special Prosecutors Johnson and Holtzmann, made to Judge Collins of Marion county criminal court, that incriminating evidence found in D. C. Stephenson's "Little black boxes" can not be used to prosecute those guilty of misconduct, is not very good news for the large and growing number of Hoosiers who hoped to see the political corruption investigation result in a first class house cleaning.

The chapters of the inquiry dealing with the "little black boxes" provide an example of miscarriage of justice that would not be believable, had it not been enacted right here in Indiana, with the knowledge of officers who were sworn to enforce the law.

The quest of the "little black boxes" was a tragedy of errors. Stephenson, the life prisoner who boastfully threatened to punish those who owed him for their political lives, one day appeared to be a willing aid for the prosecution, and the next day a dangerous foe.

Perhaps the truth will never be known, how the wire-pullers managed to keep the information contained in the black boxes from the grand jury, but the people of Indiana do know that the law was flouted and that evidence which rightfully belonged to the people's representatives, was successfully hidden until the statute of limitations became effective. It has now become the wolfe's hide that saves the guilty ones from deserved prosecution.

Likewise, it will probably never be known in what degree the people's representatives in office connived with the guilty persons in seeking to prevent the evidence from coming to light. Certainly there was some official assistance, or at least some flagrant disregard of duty, else the incriminating evidence could not have been so well concealed.

The "little black boxes" episode is a most disgraceful one in Indiana politics. Whether anyone will ever suffer for the misdeeds that have been revealed, remains to be seen. At any rate, all will agree that someone should have been punished.

Christmas Savings

The Christmas Club plan of saving money has been growing in popularity until more than a half billion dollars will be distributed this year. This sum of $501,336,000 will be divided among 8,590,000 members of Christmas clubs between now and Christmas.

This figure represents an increase in Christmas Club savings over 1926 of about $102,000,000.00, or 26 per cent while the increase in the number of members over 1926 is 12½ percent. This is five times the amount in 1920.

The average distribution per member amounts to $58.50. This is an increase of about one percent over 1926 when per member distribution was $51.22.

In addition to being a record distribution for the Christmas Club to a record membership, more banks participated in the movement during 1927 than ever before. The increase for the entire country over the preceding year was 26 percent.

This is the result of a growing number of banking institutions in the United States realizing the benefits to be derived from making the Christmas Club plan available to their communities.

The Christmas Club was organized seventeen years ago. It was first regarded only as a means of saving money to pay for Christmas needs, but has grown into a larger and more useful field. While eminently worth while as a vehicle to provide Christmas funds, it has been found more beneficial in promoting systematic weekly saving for the purpose of accumulating at the end of the year a certain fixed amount that can be used for any anticipated purpose.

The evidence is that the amount of Christmas Club deposits diverted for constructive use is growing annually. More and more the savings are being used for permanent investment or for redeposit in saving accounts. Thus is the Christmas Club proving its worth, and having proved beneficial, it has grown.

Extra help at Christmas time will cost the postoffice department nine million dollars, but in comparison that is scarcely a drop in the bucket to what Christmas "extras" cost father.

Ruth Elder and Col. Lindbergh had their pictures taken together, but surely Ruth's husband (What's his name) won't be jealous of a blushing boy like Lindy.

It's a physiological truth that you can't be in two places at the same time, but there are plenty of instances of being in debt and in bad at the same time.

The city water and light plant may not have a sinking fund, but seems to be very proficient in sinking funds nevertheless.

The scientist who is hunting for cold light surely never faced the dawn on the "morning after."

Col. Lindbergh has been presented with another medal, but what's a medal in his young life?

When November rains, can December snow be far behind?

FIFTEEN YEARS AGO TODAY

From Daily Republican
November 16, 1912

John A. Titsworth and Owen L. Carr left yesterday afternoon for Greenville, Miss., on business.

If both live until the last Thursday in November, Solomon and Mary Stone of Howard county, who were born and reared together and married in vicinity of Andersonville in 1844, will set down together to partake of the sixty-eighth Thanksgiving dinner which they have prepared and eaten together. They are remembered by many people in the southeastern part of the county.

Forty-four stockholders of the Rush county fair association, at the annual meeting of the association in the court house this afternoon, voted to abolish passes for stockholders. Hereafter stockholders will have to pay admission as do any other patrons.

The Phi Delta Kappa fraternity of this city will celebrate the second anniversary of the installation of the local chapter with a banquet next Thursday night at the Scanlan House. The Knightstown and Shelbyville chapters will attend.

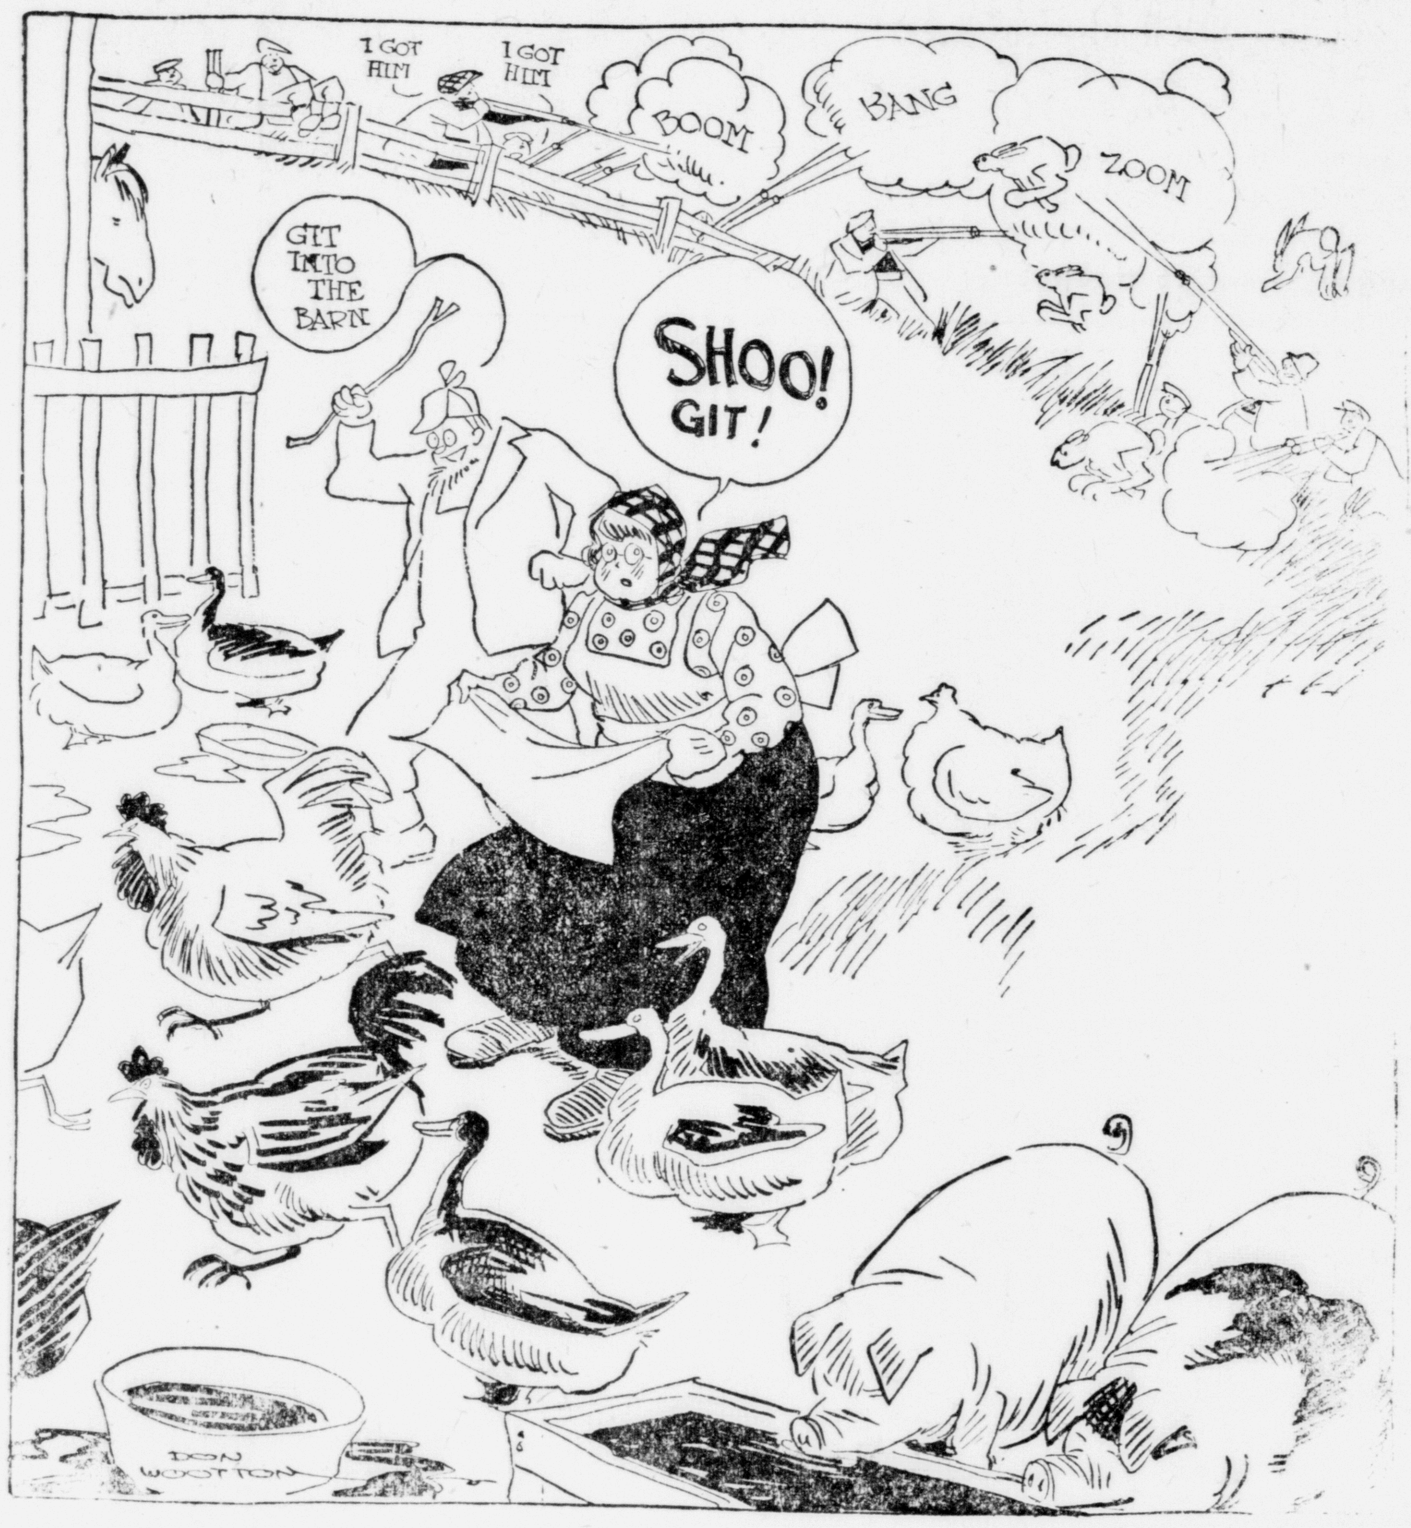
Cullen Sexton who is attending a military college in Cincinnati, is the guest of his parents, Dr. and Mrs. J. C. Sexton.

The Pythian Sisters will hold a farewell social at the Knights of Pythias building next Tuesday evening in honor of Mr. and Mrs. W. T. Simpson will leave the following Thursday for Roswell, New Mexico, to spend the winter.

Dope on the football game this afternoon between the local high school team and Brownsburg high school, pointed to a Brownsburg victory but Rushville hoped to hold the visitors to a low score. Coach George Reitsel and his bunch of huskies from Brownsburg arrived here shortly after noon and were eager for the battle. Rushville's line-up is as follows: Frazier RE; Green RF; McMahan RG; Hudrick C; Mauzy LG; Pea LT; Griffin Q; Brann, FB; Watson LH; McDonald RH.

When the county commissioners today announced they would accept the James Forbes highway in Ripley township over the objections of James Forbes, the latter declared he would appeal the case to the circuit court. The board reached this decision after the members viewed the road this morning.

THE RABBIT SEASON IS ON



WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON—The latest immigration problem suggests the perhaps beneficial expedient of setting up immigration boundaries along state lines.

Congress probably would not consider such a proposal seriously, but it has possibilities.

Mexican immigration is the problem referred to. The present quota law, designed to restrict the great hegira of aliens from Europe, does not apply to Mexico or Canada. Mexican immigration has been increasing rapidly. Official records show the arrival of more than 800,000, including 66,766 for 1927, and large numbers are supposed to have crossed the border unofficially.

* * *

LABOR unions, Secretary of Labor Davis and certain congressmen have urged the inclusion of Mexicans within the quota law and the question will come before the next Congress in the form of the Box bill, which proposes to place Mexican immigration on the same quota basis as European immigration.

There will be a fight over the bill, however, with areas along the Mexican border lined up against it.

The sentiment behind the Box bill is based on the fact that Mexican laborers are penetrating the country to northern steel mills and railroads and doing the heavy jobs formerly performed by European workers.

Their work is mostly unskilled labor, but they are offering the same competition which the quota laws erected against Europeans was supposed to stop and their presence presumably aggravates unemployment conditions caused by our own surplus of labor. If the 1924 quota law were applied to Mexico, immigration from that country would be cut to about 3 per cent of the present figure.

* * *

THE opposition to the Box bill and similar proposals comes most vigorously from California and South Texas, which areas depend importantly on Mexican labor for agricultural purposes. Every year, during the fruit and vegetable season, thousands of Mexicans cross the border from Sonora and Lower California to help harvest the crops. Some of them stay and work as farm hands the year around. The demand of this section for labor is a seasonal demand, and Mexico offers the cheapest, if not the only source.

Business men and representatives of agricultural and horticultural interests, banded together in the Association for Development of California, have appointed a commission to come to Washington and oppose the Box bill. The South Texas Chamber of Commerce was expected to take some similar action at its meeting in Brownsville Nov. 14 and 15.

* * *

SECRETARY DAVIS has suggested limiting Mexican immigration to "skilled workers of the kind needed throughout the United States," which he believes could be effected by extension of the quota law, but this hardly would solve the question for the border farmers who may be joined in their attitude by some industrial employers of unskilled labor.

BARBS

Prince Fernando of Spain has been found, according to dispatches from Europe. We didn't even know he had been lost.

* * *

Mayor Thompson of Chicago was praised as the Senate committee took up the flood situation. He "crystallized public sentiment in favor of flood control," and what a job he must have had of it in the Mississippi Valley!

* * *

George Haldeman, pilot of Ruth Elder's plane (or was it Ruth Womack's?) got in lots of sleep while returning home on an ocean liner. Lindy made an awful mistake when he didn't take a girl friend along on his flight.

* * *

Until this Teapot Dome thing started we didn't know what crude oil producer really meant.

* * *

Blackmer and O'Neil, the missing Fall-Sinclair witnesses, are just a couple of oil men trying to keep out of troubled waters.

* * *

The British journalist who wants the United States to agree not to "aid, abet or comfort" an aggressor nation, probably means something about loaning money.

THINGS WORTH KNOWING

Science has exploded the fascinating myth about Mars, said to be inhabited by a race of super-men who covered the planet with a network of huge canals. Astronomers have concluded that Mars is a world of frigid nights, warmer days and parched soil where only the hardiest of plants may grow and earth man would pant for breath due to the scarcity of oxygen compared with the earth.

A Duluth, Minn, man has 700 bank accounts of $1 each in thirty-one states, and his ambition is to make it one thousand. Since 1923 he has been hiking about the country and deposits a dollar in every town where he earns any money.

Experts doubt whether television will enable people to sit by their firesides and view distant events as they happen. Enormous obstacles are said to stand in the way of practical television for everybody, chief of which is the speed difficulty.

THE FIRST OF THE MONTH

(From The Indianapolis Star)

When the first of the month comes
And all bills come due,
Then I would rather be
Out in some far off country.
Mother says, "Let's pay; it's the
Only thing to do out our way.

Then comes the telephone bill,
The phone is so noisy, I can't sleep;
There goes the telephone
Just about the time I want to sleep.
Mother says, "Let's pay; it's the
Only thing to do out our way.

Let's not forget the water bill,
From the golden color of the water
Father believes it is cider;
Mother knows it is, because it's hard;
Mother says, "Let's pay; it's the
Only thing to do out our way.

But the last bill that is due is the gas,
Father says, "Shut the doors,
The weak thing might take cold in the draft."
Now the reader can readily see why
Mother says, "Let's pay; it's the
Only thing to do out our way.

SAVED BY BELL TWICE

Indianapolis, Nov. 16—(U.P.)—Howard Mitchell, Cincinnati lightweight was knocked out twice by Danny Budd of Terre Haute last night, but still finished the fight. A solid left sent Mitchell down in the fourth round, but the bell saved him and his seconds managed to revive him for the fifth. Another of Budd's lefts landed in the fifth, and again Budd went down and again the bell saved him. He came out strong for the sixth and last round and finished standing up.

PLENTY OF OPPOSITION FOR OPENING SET-TO

Coach Phillips and His Roarin' Lions Preparing For Waldron Here Friday Night

GRIDDERS OUT THIS WEEK

Coach Phillips and his Roarin' Lions are expecting plenty of opposition for the opening game of the season Friday night with Waldron high school, and the members of the team now out for practice will have to work hard in order to win the opening game.

Waldron comes here in midseason form, having played in a number of games, and with their victory over Shelbyville last week well in mind, while Rushville will take the floor as a new team, and some of the members will have to shake the grid dust off their feet and forget the rough part encountered on the football field.

Coach Phillips will not be in any position to designate a starting line-up, but has several who look good in practice, including Sheplar, Cross, Newbold, Leach and Brecheisen as forwards; Haywood, McCrory, Readle and F. Elliott at center and a bunch of guards, including Sadler, G. Elliott, Levi, Wagoner and others who are included in the squad and who are trying for places on some of the teams. The curtain raiser Friday night to the Waldron game will be played between candidates for the second team, in an effort to pick out the best players for future games.

You Don't Have to Pay More to Get Genuine Smoke Satisfaction. Here's the News

A good cigar at a nickel seems like a miracle these days, we'll admit. We can't complain if you don't believe that there is such a thing.

Forget the old days. Forget the price. Put just one nickel into this proposition. You're due for a cigar surprise that will upset all your ideas about the price of a good smoke. Step into the nearest cigar store and trade one nickel—no more —for a *Havana Ribbon.*

You'll get *ripe* tobacco, expertly made into a cigar that will taste sweet and mild from stem to stern. *Havana Ribbon* sold for more than five cents in the old days. It's worth more now. Try out a cigar that has tickled the taste of men who know smokes for thirty years. Say *Havana Ribbon* at your favorite cigar counter.

were creating the greatest catastrophe in our history.

"With its operations in the Missis-sip Valley floods—during the period of which it provided relief in 14 other disasters in 11 States—the Red Cross stepped into a new era of service. It showed the people not only that it is manned and equipped to handle large disasters, unaided; but that in extraordinary catastrophes it provides a nucleus about which may be formed an organization capable of meeting the needs of a disaster of any imaginable proportions.

"Furthermore, through the machinery of its nation-wide network of Chapters, the Red Cross can obtain the funds required for relief in great disasters in larger amounts and quicker time than they can be obtained in any other way.

"There is ample evidence that the demands for Red Cross services in the past few years have increased. The devotion of the people to the Red Cross must now be expressed in a larger membership, if the organization is to continue to meet its obligations in full measure.

"Five million members should be the very minimum of the expression of the confidence of the people in their Red Cross.

"A few years ago I stated that the American people should give the Red Cross a membership of ten million. My experience in directing the relief activities in the Mississippi Valley confirms my opinion. I sincerely trust that the five million goal may be but a step toward an even more generous support of the humanitarian service of the Red Cross."

BIG LEAGUE OWNERS TO CONSIDER CHANGES

Hope to Avoid in Future Some "Embarrassing Situations" That Have Developed This Year

HORNSBY CASE IS RECALLED

Chicago, Nov. 16—(U.P.)—Major league baseball club owners will meet in New York, December 15, to consider rule changes designed to eliminate "embarrassing situations."

Among the "embarrassing situations" of recent times is the case of Rogers Hornsby, who was sold from St. Louis to New York, after he had acquired considerable interest in the St. Louis club.

A league ruling prevents any player who owns stock in one club from playing with another and considerable argument occurred before Hornsby finally was allowed to play.

Another amendment reported for consideration is one which would prohibit any players, property of one club, from negotiating with another club.

Luque is said to have incurred the ire of major league magnates by attempting to negotiate with the Giants for his services, while he belonged to Cincinnati.

Umpires, under another amendment are prohibited from scouting or aiding clubs in obtaining players.

Another ruling would prohibit club owners, stockholders or officials from lending money to players or umpires.

CLASSED AS UTILITIES

Indianapolis, Nov. 16—(U.P.)—Cities operating municipally owned light and power plants are classed as public utilities, in the opinion of Attorney General Arthur L. Gilliom, and such must secure the approval of the public service commisiosn for any bonds they may issue to increase their service.

ACCIDENT IS FATAL

Fort Wayne, Ind., Nov. 16—(U.P.)—Donald Mowry, three, died here today as a result of injuries received in an automobile accident Sunday.

WOULD BE BOSS

With Jack McCallister due to depart as boss of the Cleveland Indians, Dame Rumor is very active in predicting his successor. Art Fletcher, former Phillies' pilot and last year coach of the New York Yankees, is being mentioned prominently for the job.

ON THE SIDELINES

(By United Press)

Chicago—With Captain Ken Rouse in his best condition since the Michigan battle, Chicago's hopes to defeat Wisconsin Saturday have been considerably brightened. However, Ben Greenebaum, lineman, is out as a result of an injured arm.

Evanston, Ill—Determined to close the season by defeating Iowa, Northwestern's football team is optimistic for the first time in several weeks. The optimism is due to the return to the lineup of all but three of the regulars who have been out with injuries.

Bloomington, Ind.—The most determined week of Indiana's football practice is under way. Purdue is the opponent Saturday and defeat of Purdue makes the Indiana season a fair success, regardless of the outcome of other games.

Lafayette, Ind—With the battle for the "old oaken bucket" scheduled Saturday, the Purdue football team is hard at work in preparation for Indiana. The Boilermakers are firm in their belief that the Hoosiers will go down in defeat.

Ann Arbor, Mich—Announcement that Joe Gambis, fullback, will not be able to play Saturday, has forced Michigan to abandon plans for a plunging attack against Minnesota. A defense to stop Minnesota plunging is sought.

Iowa City, Ia—Happier than an Iowa team has been in two years, the Hawkeyes are preparing to annex their final game of the season—from Northwestern Saturday. The team emerged practically unscatched from its defeat of Wisconsin last week.

Minneapolis, Minn—Driven indoors by a snowstorm, the Gophers have confined themselves to practice on signals. Perfection of an offense to defeat Michigan Saturday is one of the principal tasks of the coaches.

Champaign, Ill—Defense against Ohio State plays is the major part of the work in the Illinois camp this week. Doug Mills, sophomore back, who was called home by the death of his father last week, has returned to school and will be in the Buckeye game.

Columbus—Coach "Doc" Wilce put his regulars through a strenuous scrimmage today in prepartion for Illinois here Saturday. Wilce, who has been under severe criticism this year, would like to wind up his Big Ten schedule with a victory, if possible.

South Bend—The 2nd and 3rd Irish teams were expected to bear the brunt of work in the Drake game Saturday but Coach Rockne wasn't letting the regulars off practice entirely. A light scrimmage, in which some of the first team will participate, was expected to be held today.

Madison, Wis—Coach Thistlethwaite started pointing his Wisconsin University eleven today for the last game of the season with the Maroons at Chicago Saturday. The men reported in fair shape and went about the business of practice grimly, bearing in mind the unexpected defeat at the hands of Iowa last Saturday. Wisconsin and Chicago games are traditional for their closeness and hard play.

BOILER AND STOKER EQUIPMENT BOUGHT

From Page One

Ky; Erie City Iron Works, Erie, Pa; The Babcock & Wilcox Company, Chicago; Heine Boiler Company, Cincinnati; Illinois Stoker Company, Alton, Ill; Westinghouse Electric & Manufacturing Company, Pittsburgh; Auburn Stoker Corporation, Auburn, Ind.

Columbus—Two ways of saying "Bye, Bye, Blackbird," are in vogue here. To scare away the birds which gather in trees near residences and making themselves obnoxious by their chatter, one man places a bell in a tree to which is attached a string which he pulls to ring the bell. Another places a firecracker on a long fishing pole, lights the fuse and raises it into a tree.

ARLINGTON

About three hundred were present and at the noon hour a bountiful pitch-in dinner was served. In the afternoon a program was rendered by the grandchildern and great-grandchildren. Mr. and Mrs. Henderson are the parents of Mrs. Wililam Mann.

Mr. and Mrs. Thomas Eskew and family who have recently returned from Alabama were the Sunday guests of Mr. and Mrs. Lowell Mason.

Mr. and Mrs. Ralph Hufferd attended a birthday dinner honoring the fifth birthay of Hubert Hufferd, son of William Hufferd, Sunday.

Virgil Land and baby of Indianapolis, Roscoe Cline and daughter Margaret of Greensburg, and Mr. and Mrs. Burton Newkirk and family of Homer spent Sunday with Mr. and Mrs. Burton Newkirk and family of Homer Sunday with Mr. and Mrs. Will Stout.

FIRST MOVE ON APPEAL

Indianapolis, Nov. 16—(U.P.)—The first step in the appeal of the corviction of former Mayor John L. Duvall for violation of the corrupt practices act, to the supreme court, was taken today when a bill of exceptions was filed with special Judge Cassius C. Shirley. The bill avers the court refused to include instructions offered by defense attorneys when instructing the jury.

THINK FIRE ACCIDENTAL

Indianapolis Nov. 16—(U.P.)—Although they have gathered evidence indicating the Graystone Apartment Hotel fire in which eight persons perished Sunday may have been incendiary, authorities today asserted their belief that it was accidental. Deputy Fire Marshal George Coogan said his opinion the fire was accidental was not changed by developments.

TRAIN KILLS WATCHMAN

Indianapolis Nov. 16—(U.P.)—J. K Butler, 65, a crossing watchman, while flagging an Eastbound Big Four railroad train today stepped in front of a westbound train and was killed.

Muncie—Arnold Sollars, 17, was fined $5 and costs to which was added a 30-day jail suspended sentence here on conviction of assault and battery upon Ruus W. Moore, 71, who has given him a home since he was 11 months old. Moore said the boy became angry when reprimanded for staying out all night and attacked him with a piece of stove wood.

MOTORMAN IS IMPRISONED

Indianapolis Street Car Leaves Tracks, Injuring Four

Indianapolis, Nov. 16—(U.P.)—A battering ram was used by firemen to tear apart the vestibule of an East Michigan street car last night and rescue the motorman, Ivory Campbell, 27, who was imprisoned inside when the car jumped the track.

The car left the track at a turn, plunged up the sidewalk and stopped against a two story frame house which it partly demolished. Campbell and three of the passengers on the car were injured. Campbell suffered a fractured leg. The other victims were Mrs. Lillian Fry, 48; Mrs. Charity Suber 44, negress, and Miss Galatea Holland, 17. All except Miss Holland were seriously hurt.

Campbell believed that wet rails and temporary failure of the brakes to take hold was responsible for the accident. He said he was not going very fast, but the speed was sufficient to skid the car over the wet rails.

ALLEGED ROBBER HELD

Bedford, Ind., Nov. 15—(U.P.)—Charles Bowling, 27, wanted in connection with a recent robbery at Gosport and arrested by Bedford police last night, was turned over to Sheriff Lucas Owens of Owens county today. He was arrested because he was driving an automobile with false license plates.

AUTO THIEF SENTENCED

Bedford, Ind., Nov. 16—(U.P.)—Wilbur Parson, 31, of Shoals, began serving a term of one to eight years in the Michigan City state prison today. He was sentenced following his conviction on a charge of grand larceny in circuit court late yesterday, growing out of an auto theft.

NEW INTERNAL REMEDY ENDS AGONY OF PILES

At Last Relief Permanent Quick Without Salve Or Suppositories

THOUSANDS AVOIDING OPERATION FOR PILES

Everyone knows that piles and hemorhoids are caused by swollen dilated veins. A famous chemist asked himself one day: "Why can't I coat a pill with a substance impervious to gastric juices so it will pass through the stomach into the bowels and then dissolve into a healing, soothing liquid to reach the innermost parts—allay the pain and irritation—help nature banish piles and hemoroids in a complete and permanent way?

His research brought results. Thousands of tests prove that no matter how long or how severely one has suffered they may go about relieving their condition in a simple, scientific, harmless fashion without the use of oldtime salves, suppositories, or operations.

"For years I suffered terribly with piles. Could not work, stand up or lay down in comfort. I got discouraged as nothing helped me. At last our druggist got in these mervelous new pills. I got relief in one ay and was all cured in five days with no trace of piles since," declared one of the many thousands who have used Colac Pile Pills, Mrs. John Quinlan, Glen Falls, N. Y.

Even delicate old men and women troubled with piles, sit, walk and sleep in comfort without pain in a few hours in many instances and report complete relief in a few days. Doctors endorse this harmless, effective internal way. Anyone may get the same results. Colac Pile Pills are made in the world's largest laboratory of finest ingredients. Certainly no one, young or old, should suffer another day. Just a couple pills with swallow of water at meal time for a few days. Leading druggists in this and other towns are featuring them.

OWES FREEDOM TO SHERLOCK

Oscar Slater (above) will be freed and the charge of murder on which he was imprisoned for 17 years will be dropped following a year's fight in the man's behalf by Sir Arthur Conan Doyle, creator of Sherlock Holmes. Slater, arrested after circumstantial evidence indicated the slaying of an aged woman in a Glasgow flat was his work, was found guilty and imprisoned. His criminal record also stood against him. Doyle took up the case a year ago and using the same methods of deduction and analysis his famous character used in the detective stories, clearly established that Slater could not have committed the crime.

ELEVEN VIOLATORS SOUGHT AT MUNCIE

Eight of Remaining Muncie Writs Left Over From Federal Roundup Last Saturday

CONSPIRACY IS HINTED

Muncie, Ind., Nov. 15—(U.P.)—U. S., dry agents here today were still seeking 11 alleged liquor law violators for whom federal warrants have been issued. It is understood eight of the writs are those remaining from the big round-up of bootleggers here Saturday, and the additional three were issued following evidence given when 41 of the persons arrested were arraigned at Indianapolis yesterday. No additional arrests have been made.

Few of the 41 prisoners taken to Indianapolis as result of the raids, had returned to Muncie today. Those returning had little to say but seemed interested in reports that the federal grand jury will be asked to conduct an investigation of the local administration in an effort to prove a conspiracy existed here to defeat the dry laws.

Meanwhile Muncie ministers, through their organization, the Delaware county ministerial association endorsed the action of George L. Winkler, prohibition administrator, in conducting the raids, and pledged their support to Joe H. Davis, prosecuting attorney, and the federal forces in their drive to stamp out bootlegging in the county.

Owners of cigar stores and poolrooms where card playing has been permitted lately, were notified by police yesterday that their tables must be stacked.

Good Books Week

Reviews of New Books Received at Rushville Public Library And On View This Week, By Miss Mary Sleeth, Librarian.

"Mother India" by Katherine Mayo. You will want to read this interesting book for the picture it gives of Indian society. You will be horrified and torn by the account of suffering beyond your imagination. and may be overcome by a sense of hopelessness and melancholy. But anyone who is interested in social, religious, or political questions will find this book very worth his while to read.

"We" by Charles A. Lindbergh. You will not expect to find a piece of literature in this book, but you will enjoy it for the simple way in which this grand story of young courage and determination and achievement is told. This book might well become a fixture on a boy's book shelf.

"The Grandmothers," by Glenway Wescott. This is a book the critics think you ought not to miss. It is an exploration in human values, of an American family—a story so varied, so rich, so dramatic in its creation of American life that readers of any age will find themselves in it and of it to a remarkable degree. This story of a typical American family is reconstructed by the grandson from reminiscenses, keepsakes, and daguerreotype albums of the generations before. The 1927-28 Harper Prize was unanimously given to this book.

William Allen White says: "'Rebellion' is at last the God-awful truth about the possessive father. Ever since Jephtha, that particular old devil has been getting away with his meanness unscathed. Mateel Home Farnham has exposed him for the fraud he is. What a story she has told: a new story; modern, simple enough, but gorgeous in its homely reality." "Rebellion" is the story of Jacqueline Burrell, impetuous, wholesome, impatient of restraint, and of her father who representing the older generation, walls his daughter about with a love that, in its intensity, becomes a tyranny. On this theme is built a drama of the inevitable revolt of one generation from that which precedes it. Mateel Howe Farnham is the daughter of E. W. Howe, the famous editor and publicist of Atchinson, Kansas. This book was selected as the best of thirteen hundred manuscripts in a recent prize contest similar to that which produced "Wild Geese" two years ago.

Less Work—More Beauty With Linoleum Floors

When you can cover your rooms with a floor-covering that will not only greatly lessen the work of keeping your floors clean, but will add to the beauty of your rooms, it is not surprising that linoleum—particularly

BLABON'S Linoleum

has been increasing so rapidly in popularity as a floor-covering for every room in the home. Blabon floors are

Waterproof—Spotproof—Mothproof
Easy to Clean—Sanitary

and therefore require but little attention to keep them clean. As they will wear for years, they are most economical.

Blabon patterns have been designed with a view to supplying that universal demand for more color and increased beauty in floor-coverings.

We want you to see the many colorful Blabon patterns we are displaying and let us tell you how much it will cost to cover any of your floors.

A Star With a Trademark

Recognized all over the world by his trademark, for such it may rightfully be termed, and the only one of the radio stars of the present day who can truthfully say that he has a recognized trademark. One need not even mention his name to the radio fan, but all one need say is "Here 'Tis" and "Yours Very Truly" and they will immediately tell you that's "Little Jack Little."

His voice is magnetic over the air and when he makes his first personal appearance in Rushville Saturday at the Princess theatre, you will find that his personality is just as magnetic. If you were to see him on the street he might be mistaken for a young college youth. Jack is only twnty-five years of age and is an Iowa University boy.

Out of twenty-eight hundred request wires in one week while at W. O. C. Davenport, Iowa, Mr. Little states that over fifty percent were requests for his own idea and masterpiece "The Old Broken Down Saloon Piano." This will also be offered in his local appearance here.

"We're All Gamblers," Princess

Discovered—an extra's idea of Paradise.

It was an accidental discovery made during a study of realism. No extensive research work preceded it.

The art director for Paramount was recently given specifications which called for an elaborate night club. He hung purple and gold drapes here and there, built a platform for a ten-piece jazz orchestra, arranged tables about an oval dancing floor, strung vari-colored lights—and turned it over to James Cruze.

Mr. Cruze furnished the Paradisial touch. He asked that all the tables be equipped with chicken, pieces of steak, celery, olives, salads—and all the other things that go to make up an elaborate New Year's eve dinner in a night club. He wanted the extra players to seem natural. A kitchen was installed with flaming chafing dishes, tables of desserts, etc.

Two hundred extras in evening clothes were summoned one morning for a scene in Thomas Meighan's new picture "We're All Gamblers" which shows at the Princess theatre Thursday and Friday. While they were receiving instructions they gazed absentmindedly toward the tables and the busy chefs.

A request that they take their seats was followed by a stampede. Chicken, salads and other viands began to disappear as if by magic even before the electricians had finished setting the lights.

"Wait, wait!" shouted Mr. Cruze. "You're supposed to eat only when the cameras are grinding."

His instructions were lost in the rattle of knives and forks. It was noon and the chefs were exhausted before the scene was finished. An atmosphere of perfect bliss spread over the place when the coffee and cigarettes arrived. Paradise had temporarily settled over that corner of Hollywood.

Instant Relief
Obtained

A New Boston, Mich., man writes that he was suffering from stomach trouble. A friend of his gave him a bottle of Di-Jo and it helped him so much that when his wife was ill, she immediately tried Di-Jo and it helped her also. Name and address will be given upon application. Di-Jo is curing many cases of stomach trouble. If you are afflicted, go to your druggist and get a bottle. Take four tablets and follow with a glass of hot water. If you do not get immediate relief, take four more in half an hour. If the bowels are sluggish, get a bottle of Di-Vac. It will remove the poison from the bowels and help the stomach. If your druggist has neither Di-Jo or Di-Vac, write Drug Products, Marshall Mich.—Adv.

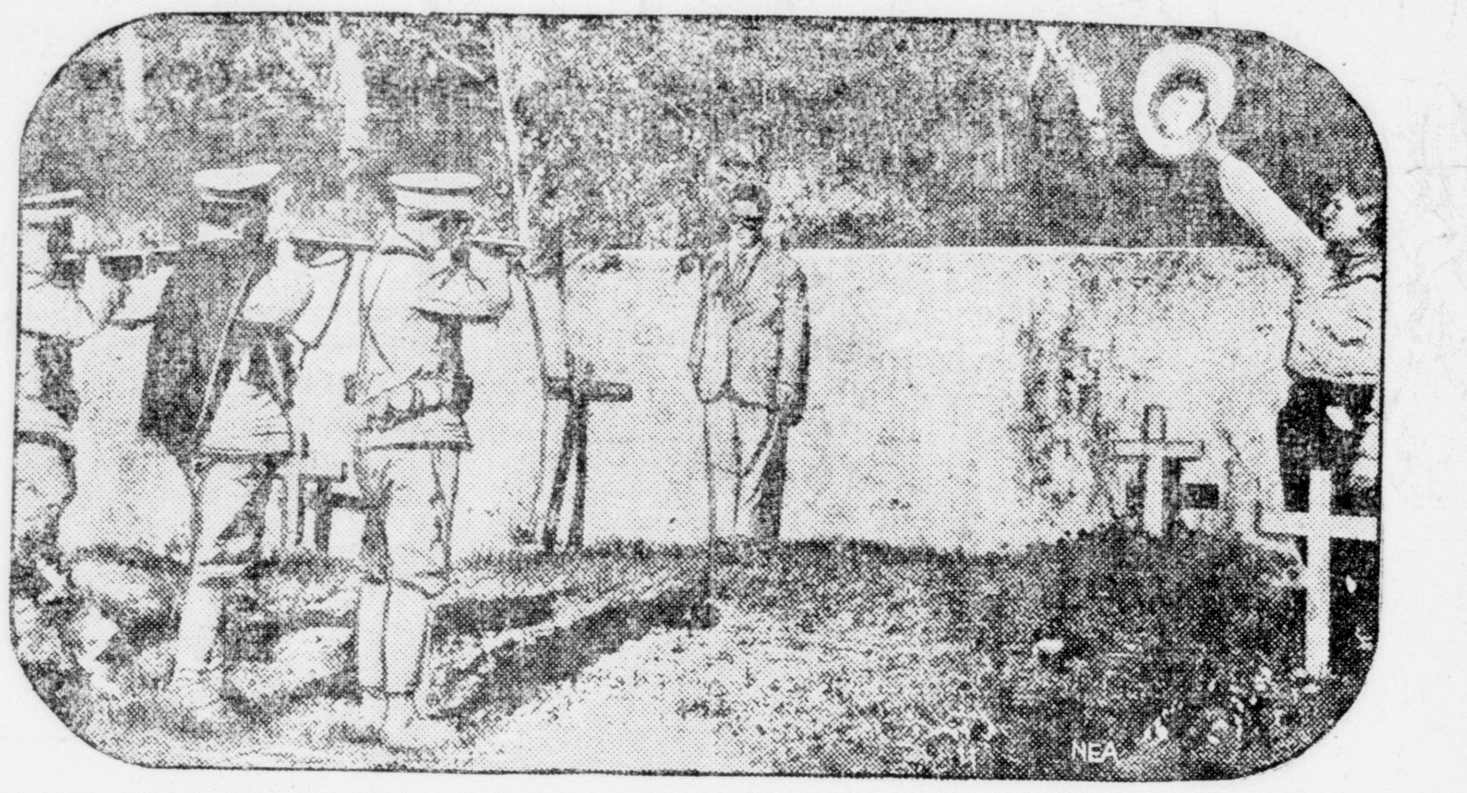
THE EXECUTION OF GEN. GOMEZ



A second after this picture was taken, Col. Manuel Limon (right) signaled with his hat, gave the command to fire, and Gen. Arnulfo Gomez (blindfolded) fell to his death with seven bullets in his body. The scene is the cemetery at Teocelo, Mexico, where the general, regarded as a formidable presidential possibility in Mexico next year, was executed as a revolutionist. Gomez had been pursued for weeks by federal troops.

MONTGOMERY EXPECTED TO QUALIFY THURSDAY

Special Judge In Conspiracy Trial of Gov. Jackson and Others To Hear Quash Motions

GARRETT OFF WITH FINES

Indianapolis, Nov. 16—(U.P.)—Special judge Oscar H. Montgomery will reach Indianapolis tomorrow to qualify to sit in the trial of Gov. Ed Jackson, George V. Coffin and Robert I. Marsh on an indictment charging them with conspiracy to commit a felony and attempting to offer a birbe. He is expected to hear arguments on a defense motion to quash the indictment.

The motion is expected to be based not alone on grounds of technical deficiency. The argument probably will center around the contention that if a felony was committed, prosecution is "outlawed" by the statute of limitations.

One of the men in public office against whom affidavits were filed as a result of the Marion county grand jury inquiry into Ku Klux Klan influence and corrupt politics in the state was arraigned yesterday—Earl S. Garrett, former market master. He pleaded guilty to three affidavits charging him with "grafting" on stand holders in the city market. Special judge Jackson Carter fined him $50 on ech of the affidavits.

Garrett, second man to be convicted as a result of the inquiry, was accused of collecting an illegal fee of $50 from David Shane for a lease transfer; an illegal fee of $50 from Emma Vincent on a lease transfer, and an illegal fee of $5 from William Helpern, an electrician, for getting him a wiring contract.

Former mayor John L. Duvall recently was found guilty of violating the corrupt practices act. He has taken an appeal. Four city councilmen are among those indicted.

WINS WINDOW DISPLAY PRIZE

A. D. Abbott Awarded $50 and First Place In National Contest

Arthur D. Abbott, display manager of the E. R. Casady dry goods store in this city, has been awarded first prize of $50 in a national contest for the best window display of women's underwear made by the company offering $150 in prizes. The display contest was put on throughout the United States during the week of October 24-29 and the contestants competed by sending photographs of their windows.

Mr. Abbott's window won special praise from the judges, who commented on the use of a thermometer and a card sign and the manner in which the window was used to convey the thought that the underwear was warm and should be worn in cold weather. The thermometer register zero and "icicles" hung from the ceiling.

Aged Man Spends 13 Hours At the Bottom of a Well

Kokomo, Ind., Nov. 16—(U.P.)—Oliver Roth, 72, is recuperating today after spending 13 hours at the pottom of a well which caved in on him as he was cleaning it out. Rescuers dug frantically to reach him, working after dark in the glare of automobile headlights, but were impeded by two other cave-ins which blocked their progress. Just after midnight today they rescued him. Roth was thoroughly exhausted but suffered no other ill effects.

National guardsmen guarded the mouth of the well during the work to keep it clear of the great crowd which gathered. Roads in all directions were jammed for miles by automobiles of the curious.

CORN BORER CASE APPEALED

State Entomologist Certifies Case to Higher Court

Indianapolis, Nov. 16—(U.P.)—The appellate court will be called upon to determine the right of state authorities to clean up corn fields infested with the corn borer when the case of Frank N. Wallace, state entomogist, vs., Charles Dohner, DeKalb county farmer, comes up for trial in the near future. Wallace brought the matter into the jurisdiction of the higher court yesterday by filing a transcript of the evidence in the case, which seeks to set aside a permanent restraining order to prevent state and federal authorities from cleaning up infested stalks on the Dohner farm.

The case originated when men under the direction of Wallace went onto the Dohner farm and disposed of infested stalks in an effort to prevent spread of the borer. The entomoligist was made defendant in a suit brought by Dohner and the permanent restraining order was granted by Judge Will Endicott.

BOILER AND STOKER EQUIPMENT BOUGHT

City Water and Light Plant Contract Awarded by Council to Heine Boiler Company

COMBINED PRICE, $21,685

Final Resolution Calling For Paving of Alley Near Howell Bros., Is Passed

A contract for a new boiler and stoker equipment for the city water and light plant was awarded to the Heine Boiler Company of Cincinnati, at a midnight session of the city council held Tuesday night.

Bids were received from several concerns, and the entire evening was spent with the representatives of the companies in going over the specifications and merits of the proposals.

The session lasted until after midnight, when the council voted four to one in favor of the Heine concern, whose bid included a complete job of stoker, boiler and accessories for $21,685. Some firms submitted bids on separate items.

Among other business that came before the councilmen wa sthe passage of a final resolution calling for the paving of the alley just west of Howell Brothers shop. No one filed a remonstrance against the improvement, and the council will receive bids on December 6, the next meeting. With a week of good weather in December the paving can be completed, it was stated, as the alley to be paved is only a bolck in length, extending froh First to Second streets.

No one filed a remonstrance against the primary assessment roll for the sidewalk in Harison street between Eleventh and Thirteenth tsreets and the council ordered the assessments transmitted to the city treasurer for collection.

Seven firms were represented with sealed bids at the session, and each firm was represented in person with two or more salesmen. After the bids were opened and tabulated, each firm was given an opportunity to appear before the council for a private session and tell of the good points and answer questions concerning his proposals.

The councilmen spent the rest of the evening in this manner, and after each had been heard, a vote was taken, and the decision favored the Heine concern.

The boilers at the plant now in use were installed by the Heine company and some of them have been in constant use for 17 years. The capacity of the new unit will be 500 horse power. The stoker equipment is of the latest improvement, it was stated.

With this added unit, it will pave the way for the installation in the near future of another electrical unit or turbine, to relieve the load which now exists in this department of the plant.

The new unit will be installed and placed in operation in the early spring. The cost of the work will not be paid by bonds, or taxation, but with the earnings from the plant within the next year.

The firms submitting bids on the equipment were as follows: Henry Vogt Machine Company, Louisville,

A large crowd of people attended the auction sale of C. H. Tompkins, who is closing out his stock of second-hand automobiles and household goods preparatory to moving to California.

Two shares of stock in the Rushville Co-operative Telephone company sold this afternoon for $1,030, or an average of $515 a share, going to Owen L. Carr after spirited bidding.

The sale got under way at ten o'clock this morning and it was doubtful whether all goods would be sold by late afternoon, Clem Miller was the auctioneer.

JOHN T. KIRKPATRICK, 79, IS STRUCK BY AUTO

Rushville Man Suffers no Broken Bones, But Injuries May Prove Serious Due to His Age

HARRY TILLEY RECOVERING

John T. Kirkpatrick, 120 East Eighth street, was painfully injured Tuesday night when he stepped in front of an automobile driven by Alvin Lawson, RFD 8, at the corner of Seventh and Main streets.

Mr. Kirkpatrick, who is past 79 years of age, spent a restless and nervous night, and because of his age the accident is of a serious nature. No bones were broken, but he suffered many bruises and cuts about the body.

Details concerning the accident were being gathered by the police, who were called to conduct an investigation.

Harry Tilley of Indianapolis, who was injured in an automobile wreck Sunday, November 6, on the road south of Rushville and near New Salem, is slowly showing signs of recovery at the Dr. Sexton Hospital, it was stated today by Dr. M. C. Sexton.

Mr. Tilley suffered a concussion of the brain, when a machine telescoped his car which was parked along the roadside, when the lights went out for some cause, and he was attempting to repair them. For several days following the accident he remained unconscious, but recently shows improvement, although the outcome of his injuries is still in doubt. The blow which he suffered on the head was of such a nature that may affect his mind permanently, unless he responds to the treatment more readily than he has been in the past few days, although his condition is regarded as satisfactory, even if it is showing slow gains.

GOVERNMENT TO PUNISH MISSING KEY WITNESS

Court Order Calls For Seizure of H. M. Blackmer's Property—Disregarded Subpoenas

OIL TRIAL DEVELOPMENT

Washington, Nov. 16—(U.P.)—The government today set out to punish H. M. Blackmer, missing key witness in the Fall-Sinclair oil trial.

A court order issued here called for seizure of his property under the Walsh law and for Blackmer's appearance here in January to tell why he should not be adjudged in contempt of court and forfeit $100,000 property for failing to heed subpoenas in the oil trial.

Meantime, Senator Walsh, dem., Montana, original investigator of the oil scandals, announced plans for introducing legislation designed to open the lips of M. T. Everhart, son-in-law of former Secretary of Interior Fall. Through Everhart's testimony—hitherto withheld on the plea that it might incriminate himself—the government hoped to trace definitely the $230,500 in Liberty bonds allegedly passed by Harry F. Sinclair to Fall soon after the Dome lease was granted Sinclair.

Walsh proposed that the president be authorized to grant a presidential reprieve whereby Everhart would be free from any prosecution should his testimony prove incriminating.

Other developments today in the grand jury investigation of an alleged conspiracy to tamper with the Fall-Sinclair jury were:

Owen Roberts, government counsel, went on a mysterious trip with William McMullin, government spy, who told of an alleged plot among Burns detectives to "frame" mistrial evidence.

The grand jury recessed two days, pending arrival of records needed to round out the government case before the jury decided whether indictments or no true bills are to come from its labors.

The courthouse was clear of Burns agents today for the first time in two weeks. William J. Burns, noted International detective, also was gone with his sons, W. Sherman and Raymond. They were excused along with the agents without bond.

THREE ARRESTED FOR LIQUOR LAW VIOLATIONS

Harold Holt, Curt Nay and Raymond Finney in Jail Pending Arraignment On Charges

ONE CARRIED REVOLVER

Three arrests for liquor law violations were made Tuesday night by Sheriff Coons, and all three were held in jail today pending arraignment on hearges to be filed by Prosecutor George.

Those arrested are Harold Holt, Curt Nay and Raymond Fineny. According to the officers, Holt was arrested for being intoxicated, and a charge of selling liquor will be placed against him. Nay was arrested for having a portion of a bottle of liquor in his possession, and he is said to have told the officers that he purchased it from Holt near the Big Four depot.

The sheriff, accompanied by Patrolman Blackburn and Deputy Sheriff Alex Coons, went to the depot and found Finney there, with a bottel of liquor in his possession, and when he was searched a loaded automatic revolver was found, which will make an additional charge against him, according to the officers.

Holt and Nay came here from near Madison and have been employed on a farm northeast of Rushville. The officers have suspected Holt of being engaged in the liquor traffic, they stated, and were watching for him Tuesday night.

DENVER VOTES TO MODIFY

Democrat Elected to Congress On A "Wet" Platform

Denver, Colo., Nov. 16—(U.P.)—Denver has gone on record as favoring modifications of the Volstead law.

Complete returns in yesterday's election today showed S. Harrison White, democrat, former state supreme court justice was elected to congress—on a "wet" platfrom—by 4,270 votes over state senator Francis J. Knauss. The election was to fill the unexpired term of the late William N. Vaile.

Complete returns gave White 32,177 votes and Knauss 27,457 votes. Two Independent candidates, George Kindel and Huston M. Marrs, polled less than 3,000 votes.

The election closed a bitter campaign which began when the democratic convention here went on record favoring modification of the Volstead act, and chose White as their candidate.

ORDERED TO LEAVE STATE

Newcastle, Ind., Nov. 16—(U.P.)—Robert Gilbert, 26, bus driver, arrested here following a series of alleged incendiary fires, is under orders today to leave the state of Indiana. There apparently was not enough evidence to convict Gilbert as a "fire bug" so when he was brought before Judge J. R. Hinshaw in Henry circuit court, the judge ordered him to leave the state. No fires have occrred since Gilbert's arrest.

ASKS SECRETARY OF LABOR BE CALLED

George Remus, on Trial for Murder of His Wife, Seeks to Expose Plot to Deport Him

WANTS IMMIGRATION RECORDS

Charges Mrs. Remus and Franklin L. Lodge Entered into Conspiracy While He Was in Prison

Court Room, Cincinnati, O., Nov. 16—(U.P.)—George Remus, on trial charged with the murder of his wife, Imogene, today moved to subpoena James J. Davis, Secretary of Labor, so that immigration records could be introduced in defense of the former king of bootleggers.

Judge Chester R. Shook, after lengthy debate between Remus and and Charls P. Taft II, county prosecutor, overruled the motion as being "unnecessary and beyond the jurisdiction of the court."

Remus asked hat Secretary Davis be directed to appear with "the entire lle of defendant in the department of labor, bureau of immigration, introducing therein especial reference to the honorable secretary of certain anonymous letters relating to the defendant."

In explaining his motion Remus said that if the records were brought into court he could prove that Mrs. Remus and Franklin L. Dodge, former operative of the department of justice, conspired to have him deported.

When Taft opposed the motion, Remus roared "the prosecutor should try to get all the evidence, not merely that beneficial to his own side of the case."

"It is quite evident" Taft observed quietly, "that the only reason for the motion was to give Re-

LIBERTY WIDOW IN A GENERAL DENIAL

Mrs. Margaret Smith Testifies She Gave No Medicine to Husband Except That Prescribed

NO INFATUATION FOR DOCTOR

Liberty, Ind., Nov. 16—(U.P.)—Testifying in her own defense today, Mrs. Margaret Smith, charged with the murder of her husband, George Smith, by poisoning, told a jury in Union circuit court she never gave her husband any medicine during his last illness except that prescribed by Dr. H. W. McCreary, the family physician.

The widow declared that so far as she knew there was no asrenic in the Smith home at any time preceding or during her husband's illness. It has been the contention of the state that Smith died of arsenic poisoning.

"I never had any infatuation for Dr. McCreary," Mrs. Smith testified. The prosecution has adcanced as a motive for the slaying an attraction between the doctor and the widow. She testified that she had never written threatening letters to the doctor regarding attentions he is alleged to have paid a Liberty woman, nor wrote letters to herself. She said she had received letters containing threat and had showed them to Dr. McCreary.

Ilene Smith, 15, daughter of the accused woman, also was a witness today, testifying that her father and mother had not quarreled within her memory of conditions in the home.

It appeared likely late this afternoon that the case would be in the hands of the jury tonight. It is planned to hold a night session for closing arguments and instructions by the court, as the defense intends to close with the testimony of Mrs. Smith, while the state will call only two or three witnesses in rebuttal.

75 CHILDREN ARE RESCUED

Escape Form Mt. Mercy Academy, Grand Rapids, Within Five Minutes

Grand Rapids, Mich., Nov. 16—(U.P.)—Seventy-five children were rescued within five minutes after fire broke out in the main building of Mt. Mercy academy early today.

Awakened by smoke, Sister Leone cried an alarm and led 42 other nuns to the children's dormitories on the top floor.

Thirty babies, asleep in their cribs, were gathered into the arms of nuns. The other nuns roused the older children and marched them, without confusion, down a stairway. They were taken in their night clothes to an adjoining building.

Originating in the basement from defective wiring, the fire caused $75,000 damage. Many prizes possessions of theacademy, including a gold harp, were destroyed.

The Weather

INDIANA — Mostly cloudy tonight and Thursday. Probably rain in extreme south portion tonight. Slightly colder tonight.

TOTTERING BUILDINGS ADD TO RESCUE HAZARD

With Two More Bodies Recovered and 30 Missing, Search Continues In Pittsburgh Ruins

26 BODIES ARE RECOVERED

Pittsburgh, Pa., Nov. 16—(U.P.)—Encouraged by the discovery of two bodies during the night, the army of rescuers pushed forward with renewed vigor today to extract the dead from the debris of Pittsburgh's fatal gas explosion.

The bodies recovered stood at 26 today. The missing numbered more than 30 and 95 injured were still detained in hospitals.

Led by Charles A. Gray, a rescue squad which for two days has concentrated its efforts on the ruins of the Pittsburgh Clay Pot company, adjoining the exploded tanks of the Equitable Gas company, penetrated the lower levels of the building where the bodies of the 25th and 26th men were found.

"Our first aim is to account for all the dead and missing," county coroner W. J. McGregor said. He has spent much time in the explosion area. "An intensive investigation into the cause and responsibility of the blast will not be made until the rescue work has ended."

Tottering buildings added to the hazardous conditions under which rescuers worked.

All wrecked buildings in the district were being inspected by officials of the city department of public works and all unsafe structures were ordered razed. Repair work was going forth on slightly damaged dwellings on the ringe of the wasted plot.

EIGHT OBJECTIONS TO REOPENING HIS CASE

E. S. Shumaker, Superintendent Of Anti-Saloon League, Files Plea With Supreme Court

GILLIOM TO STUDY THEM

Indianapolis, Nov. 16—(U.P.)—Eight specific reasons for objection to further hearings in his contempt of court case were contained in papers filed with the Indiana supreme court today by Dr. E. S. Shumaker, superintendent of the Indiana Anti-Saloon league.

Attorney General Arthur L. Gilliom was about to leave for Washington when the brief was filed. He said he would study the objections upon his return next week.

Six of the eight points offered by Dr. Shumaker were so highly technical that newspapermen scurried around in, search of lawyers to interpret them. The seventh asks dismissal of the motion to reopen the case on the ground that no showing has been made that his alleged later contemptuous conduct was in the actual or constructive presence of the court. The eighth demands that his sentence of six months on the Indiana prison farm and$250 fine be revoked because of his inability to determine the nature of the charges brought against him in the original trial. He says his attorneys were unable to provide an adequate defense because of lack of this knowledge.

ROLL CALL SLOW GETTING A START

With Four Days of Membership Campaign Gone, Only $79 is Reported by Workers

ONE SUSTAINING MEMBER

Herbert Hoover Says Five Million Members Should be Minimum of Expression of Confidence

With the Red Cross Roll Call having yielded only seventy-six members today after four days of the campaign had elapsed, the Kappa Sigma sorority, in charge of the Roll Call, made an appeal for a more ready response from the people of Rush county.

The local chapter retains a generous share of the money derived in the membership campaign, and already the local chapter is devoting some of this to local purposes in the employment of a county health nurse who has begun the physical examination of school children.

The only report made in the Roll Call up to today showed thirty-nine members enrolled at $1 each. Today's report disclosed twenty-seven more members and a contribution of $10 from the Norris Fertilizer company, which makes the concern a sustaining member of the Rush county chapter.

Individual members reported today were as follows:

Mrs. Marian Wilson, Mrs. Anna Dearinger, Elsbury Pea, Howell Bros., Simeon Stewart, Sharp's Meat Market, Alvin Shaw, Robert W. Pierce, Mrs. Herbert C. Flint, Link Guffin, J. E. Gantner, Mrs. Carolyn Chamberlain, Pearl Leach, Mrs. Homer Powell, Homer Powell, Mrs. Bertha Blount, Mrs. Anna C. Moses, Will J. Leach, Miss Lenora Owen, Miss Anna Bohannon, Miss Mary Williams, Miss Elga Thomas, Walter Coooway, Rev. Gibson Wilson, Mrs. Minnie Williams, Elmer Bohannon and Helen Spivey.

Secretary of Commerce Herbert Hoover, who directed the relief operations of the American Red Cross and the agencies of the government in the Mississippi Valley floods, declares that "five million members should be the very minimum of the expression of the confidence of the people in their Red Cross."

In a statement, calling for membership support of the Red Cross, Secretary Hoover says:

"The American National Red Cross is charged by the Congress of the United States with the responsibility of continuing and carrying on a system of national and international relief in time of peace and of applying the same in mitigating the suffering caused by pestilence, famine, fire, floods, and other national calamities and of devising and carrying on measures for preventing the same.

"If the American Red Cross had not already given conclusive proof in the past decade of its ability to fulfill these obligations, it amply demonstrated its fitness to serve as the Nation's agency for providing the services of rescue and relief in disaster during the months the Mississippi river, and its tributaries,

JOHN CHARLES TITSWORTH DIES

Little Son of Mr. and Mrs. John A. Titsworth Seriously Ill a Week

John Charles Titsworth, little son of Mr. and Mrs. John A. Titsworth, died Tuesday night about six o'clock at the family home, 729 North Perkins street after a serious illness of a week. The child would have been five years old next Tuesday.

The deceased had been in poor health for several months, and underwent an operation several weeks ago in an effort to regain his health, but grew worse during the past week. In addition to his parents, he is survived by two half-brothers, Russell B. Titsworth and Harold Titsworth, of this city and a half sister, Mrs. Gladys Pearcey of Hillsdale, Mich.

Funeral services will be held at the late residence Friday morning at ten o'clock, in charge of the Rev. B. F. Cato, and burial will be made in East Hill cemetery.

15 MILLION BUSHELS ARE ADDED TO CORN ESTIMATE

Favorable October Weather Responsible For Imporved Condition Of Crop In Indiana

POTATO YIELD IS GOOD

Lafayette, Ind. ,Nov. 16—(U.P.)—Fifteen million bushels of corn have been added to the Indiana corn crop estimate owing to extraordinary weather during October, it has been announced by the department of agricultural statistics of the Purdue experiment station. The estimated yield has been placed at 31 bushels per acre, or an increase of 3.7 bushels over last month. The increase in the estimate represents corn that cured much better than expected during October rather than an actual increase in production. It is indicated that while little of the corn is soft or in danger of spoilage, much of it is chaffy and of very low feeding value. Stocks of old corn on farms are estimated at 12,107,000 bushels compared to 20,323,000 last year and the ten year average of 9,353,000 bushels.

Potatoes are reported very good, the yield proving higher than expected as digging progressed and the quality exceptionally good.

Soybeans are making satisfactory returns this years, and the favorable harvest weather this year makes a striking contrast with that of the two preceding seasons when much loss occured after cutting.

Apples are estimated somewhat below last month and the quality of the crop is the poorest for several years.

Production of creamery butter in Indiana for September was 4,805,700 pounds. Demand for farm labor de-lined last month, according to the report.

LET'S SETTLE THIS TIRE QUESTION NOW

Most maufacturers claim to have "the better tire." They're sincere.

The tires of 1927 are better, of course, than the tires of 1907 and 1917. It's to be expected that the tire of 1937 will be better still.

But the man buying a tire today wants to know, "What's the best tire on the market NOW?"

Everybody tells him: "I've got it — a bargain." "Here it is —with a special discount." Claim upon claim, inducement on inducement.

Yet, after all, the intelligent buyer will always bank on this "preponderance of the evidence," as the lawyers call it:

MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

The reason for this is plain. Goodyear Tires have made good. They are supreme on the road, where performance is the only judge.

Goodyear keeps this leadership unchallenged because — Goodyear makes the World's Greatest Tire —

Goodyears out-perform any other tires;

Goodyears sell at fair prices without "bargains," "discounts" or cuts in quality;

Goodyears are backed by a standard, friendly, expert service —the kind we give you here.

Every customer we have will vouch for these statements about the Goodyear Tires we sell.

It will be a pleasure to show you the new Goodyears and demonstrate our service.

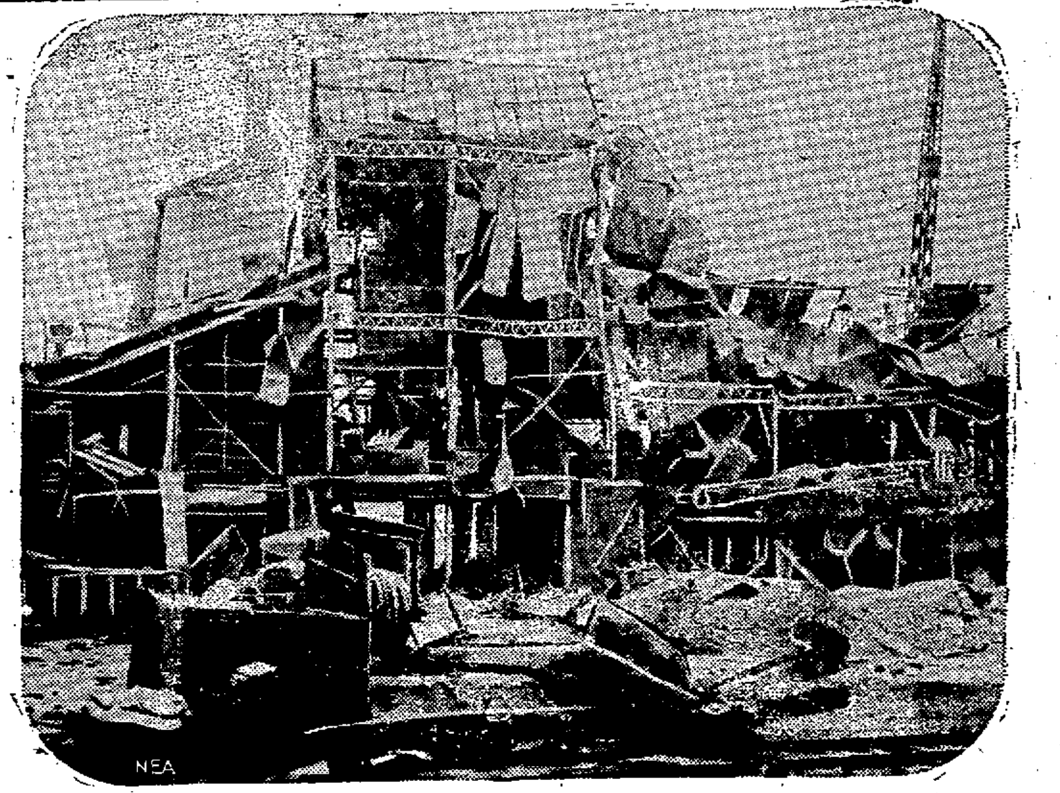
Episode No. 5
"CRIMSON FLASH"

WHERE WORKERS WERE TRAPPED BY BLAST



This ruined building is all that is left of the Pittsburgh city asphalt plant, destroyed by explosion of the Equitable Gas Co.'s huge tank across the street. Many workers, trapped in this building, lost their lives.

mus the chance to make a speech."

"I understand the prosecutor knows where Franklin L. Dodge can be reached," Remus continued. "I ask that the sheriff be told Dodge's address so that the latter may be served with a defense subpoena."

The court again ruled against Remus who cried out that the prosecution was concealing witnesses.

Dodge has been accused by the defendant of stealing the love of Mrs. Remus and conspiring with her to rob Remus of his huge bootleg fortune.

Selection of a jury continued and shortly afterwards for the first time 12 talesmen composed of eight men and four women were in the box.

The state withdrew one however, and the attorneys set to work to find a successor.

Remus lost still another point when Taft put the following question to a juror: "The court will charge you that there are three tests of insanity the jury must follow in this case. Will you follow them rather than any preconceived idea of your own?"

Remus argued there were many tests of insanity and that three would be too restrictive.

Just before luncheon recess was declared, the original panel of 75 was exhausted.

RELIEVED OF ACTIVE DUTY

Washington, Nov. 16—(U.P.)—Col. Charles Lindbergh, who was recently ordered to active duty as a member of the army reserve at Selfridge flying field, Michigan, until December 31, was today relieved of such duty at his own request. Lindbergh said other matters had arisen changing his plans, according to the war department.

LOCALS

Wrist Dislocated

Charles Wilson, formerly of this city and now living south of New Salem, suffered a dislocation of his right wrist while cranking an automobile this morning. He was brought to the Dr. Frank Green hospital for treatment.

Concert Pianist To Appear

Music lovers of Rushville will be interested in the program to be given by William McGregor, concert pianist of Indianapolis, in Knightstown Sunday afternoon at the home of Mrs. C. C. Bundy. The program starts at three o'clock.

Confined By Injuries

Frank Bender is confined to his home in West Fifth street, suffering from bruises and other injuries which he received Sunday morning when a machine in which he was riding and which was driven by Lincoln Guffin, became unmanageable and went into a ditch near Greensburg.

Mrs. S. L. Trabue Improves

Mrs. Samuel L. Trabue, who has been in the Methodist Hospital in Indianapolis, was able to be up Tuesday. She will be removed to the home of her parents, Mr. and Mrs. Fred W. Jaehne, 5928 College Avenue, Wednesday. After spending a few days there she and her daughter, Janet McKee, will return to their home here.

Possession Case Appealed

Notice of appeal to the circuit court has been taken in the case of George Helm against Pearl Hinchman, a suit for possession heard this week in Justice Stech's court. In the case judgment for possession and $37.50 judgment was awarded, and the defendant will now take the case into the circuit court for another trial.

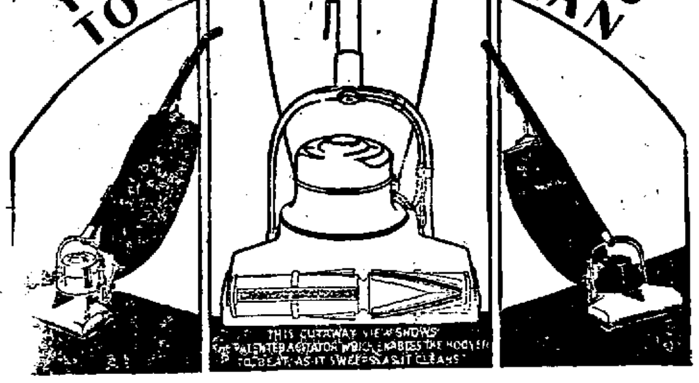
Eagles Organizer Coming

All members of the Eagles lodge are urged to attend the meeting Thursday night, when there will be initiation and a visit to the local aerie by Edward Bigelow, of the national organization. He will make an address to the members, following a class initiation. The class will consist of 32 candidates, instead of 26 as first announced. Refreshments during the evening will also be served.

M. E. Pastor to Speak

The Rev. Ezra L. Hutchins, pastor of the St. Paul Methodist church, will address the monthly Men's meeting in the United Presbyterian church tonight. This is the regular meeting held by the Fellowship class, of which the pastor, the Rev. E. D. McKune, is teacher. An invitation has been extended to men of other men's classes in the city, through the class president, H. E. Pike, to be present to hear the address tonight. The meeting is scheduled to begin at 7:30 P. M. and since the purpose is that of Christian fellowship, no expense is planned in connection with the meeting.

YOU HAVE TO BEAT RUGS TO GET THEM CLEAN



THIS CUTAWAY VIEW SHOWS THE PATENTED AGITATOR WHICH ENABLES THE HOOVER TO BEAT AS IT SWEEPS AS IT CLEANS

NOTHING very new about that, is there? You've heard it a thousand times. If you've ever kept house you know it's true.

In The Hoover beating, instead of being concentrated in a few violent strokes as with carpet-beater or broom, is modified into a series of swiftly repeated air-cushioned taps. This is accomplished by means of a totally new appliance—the exclusive and patented Hoover Agitator illustrated here.

Suction lifts the rug off the floor and floats it on a cushion of air while the Agitator gently flutters out all the embedded grit.

Then strong suction draws all this dirt into the dust-tight Hoover bag.

Simple, isn't it? Efficient, too. "You have to *beat* rugs to get them clean."

The difference between The Hoover and a vacuum cleaner is that The Hoover *does* beat them—"Positive Agitation" being a feature of the celebrated Model 700 Hoover and of the lower-priced Model 543 Hoover as well.

BIBLE THOUGHT —FOR TODAY—

Bible Thoughts memorized, will prove a priceless heritage in after years.

God's Confidence: The heaven, even the heavens, are the Lord's, but the earth hath he given to the children of men. Psalm 115:16.

Prayer: O Lord, help us to prove that we are trustworthy.

The "Little Black Boxes"

The announcement in the report of Special Prosecutors Johnson and Holtzmann, made to Judge Collins of Marion county criminal court, that incriminating evidence found in D. C. Stephenson's "Little black boxes" can not be used to prosecute those guilty of misconduct, is not very good news for the large and growing number of Hoosiers who hoped to see the political corruption investigation result in a first class house cleaning.

The chapters of the inquiry dealing with the "little black boxes" provide an example of miscarriage of justice that would not be believable, had it not been enacted right here in Indiana, with the knowledge of officers who were sworn to enforce the law.

The quest of the "little black boxes" was a tragedy of errors. Stephenson, the life prisoner who boastfully threatened to punish those who owed him for their political lives, one day appeared to be a willing aid for the prosecution, and the next day a dangerous foe.

Perhaps the truth will never be known, how the wire-pullers managed to keep the information contained in the black boxes from the grand jury, but the people of Indiana do know that the law was flouted and that evidence which rightfully belonged to the people's representatives, was successfully hidden until the statute of limitations became effective. It has now become the wolfe's hide that saves the guilty ones from deserved prosecution.

Likewise, it will probably never be known in what degree the people's representatives in office connived with the guilty persons in seeking to prevent the evidence from coming to light. Certainly there was some official assistance, or at least some flagrant disregard of duty, else the incriminating evidence could not have been so well concealed.

The "little black boxes" episode is a most disgraceful one in Indiana politics. Whether anyone will ever suffer for the misdeeds that have been revealed, remains to be seen. At any rate, all will agree that someone should have been punished.

Christmas Savings

The Christmas Club plan of saving money has been growing in popularity until more than a half billion dollars will be distributed this year. This sum of $501,336,000 will be divided among 8,590,000 members of Christmas clubs between now and Christmas.

This figure represents an increase in Christmas Club savings over 1926 of about $102,000,000.00, or 26 per cent while the increase in the number of members over 1926 is 12½ percent. This is five times the amount in 1920.

The average distribution per member amounts to $58.50. This is an increase of about one percent over 1926 when per member distribution was $51.22.

In addition to being a record distribution for the Christmas Club to a record membership, more banks participated in the movement during 1927 than ever before. The increase for the entire country over the preceding year was 26 percent.

This is the result of a growing number of banking institutions in the United States realizing the benefits to be derived from making the Christmas Club plan available to their communities.

The Christmas Club was organized seventeen years ago. It was first regarded only as a means of saving money to pay for Christmas needs, but has grown into a larger and more useful field. While eminently worth while as a vehicle to provide Christmas funds, it has been found more beneficial in promoting systematic weekly saving for the purpose of accumulating at the end of the year a certain fixed amount that can be used for any anticipated purpose.

The evidence is that the amount of Christmas Club deposits diverted for constructive use is growing annually. More and more the savings are being used for permanent investment or for redeposit in saving accounts. Thus is the Christmas Club proving its worth, and having proved beneficial, it has grown.

FIFTEEN YEARS AGO TODAY

From Daily Republican
November 16, 1912

John A. Titsworth and Owen L. Carr left yesterday afternoon for Greenville, Miss., on business.

If both live until the last Thursday in November, Solomon and Mary Stone of Howard county, who were born and reared together and married in vicinity of Andersonville in 1844, will set down together to partake of the sixty-eighth Thanksgiving dinner which they have prepared and eaten together. They are remembered by many people in the southeastern part of the county.

Forty-four stockholders of the Rush county fair association, at the annual meeting of the association in the court house this afternoon, voted to abolish passes for stockholders. Hereafter stockholders will have to pay admission as do any other patrons.

The Phi Delta Kappa fraternity of this city will celebrate the second anniversary of the installation of the local chapter with a banquet next Thursday night at the Scanlan House. The Knightstown and Shelbyville chapters will attend.

Cullen Sexton who is attending a military college in Cincinnati, is the guest of his parents, Dr. and Mrs. J. C. Sexton.

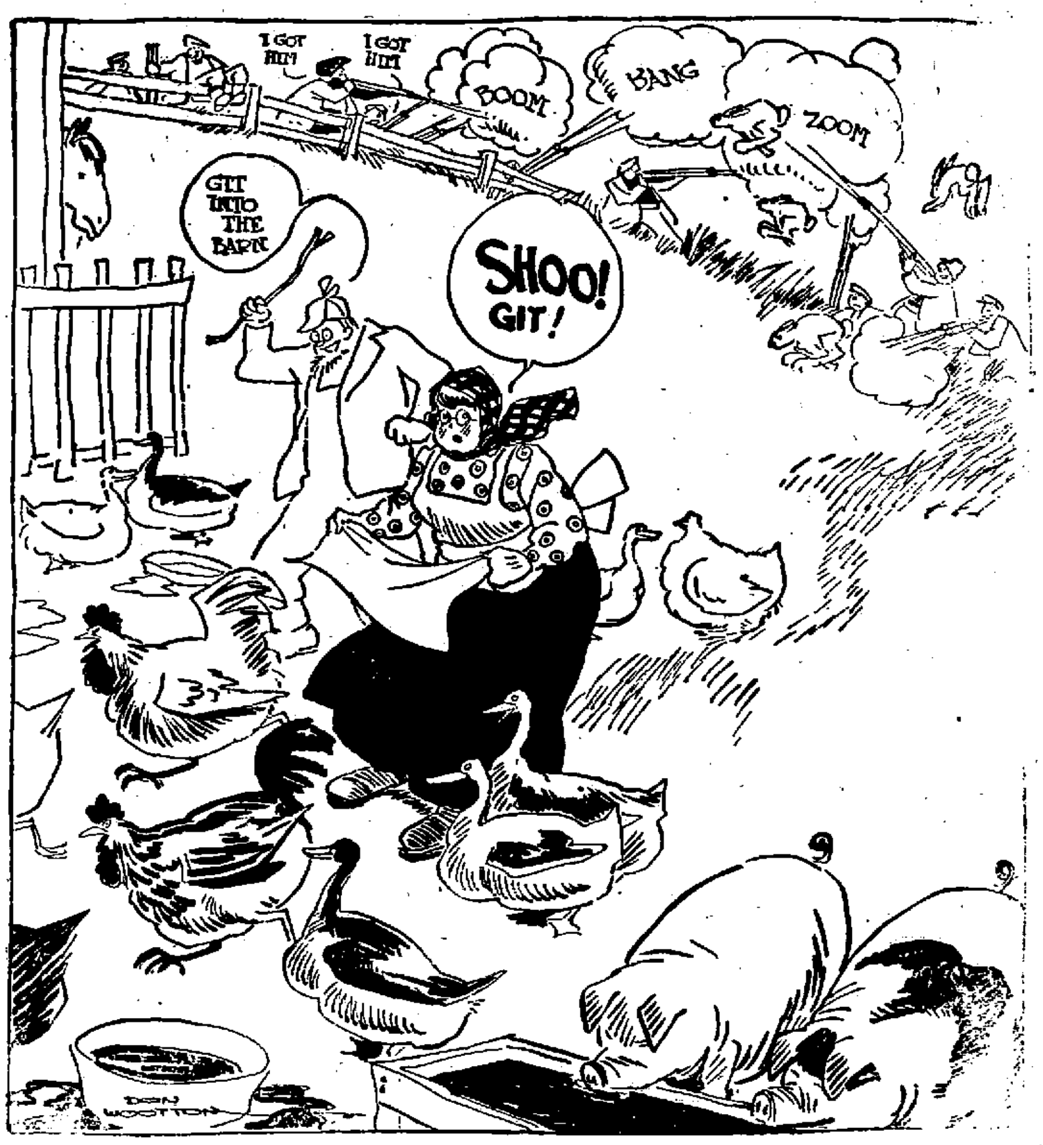
The Pythian Sisters will hold a farewell social at the Knights of Pythias building next Tuesday evening in honor of Mr. and Mrs. W. T. Simpson will leave the following Thursday for Roswell, New Mexico, to spend the winter.

Dope on the football game this afternoon between the local high school team and Brownsburg high school, pointed to a Brownsburg victory but Rushville hoped to hold the visitors to a low score. Coach George Reitsel and his bunch of huskies from Brownsburg arrived here shortly after noon and were eager for the battle. Rushville's line-up is as follows: Frazier RE; Green RF; McMahan RG; Hudrick C; Mauzy LG; Pea LT; Griffin Q; Brann, FB; Watson LH; McDonald RH.

When the county commissioners today announced they would accept the James Forbes highway in Ripley township over the objections of James Forbes, the latter declared he would appeal the case to the circuit court. The board reached this decision after the members viewed the road this morning.

A fast game of football is expected tomorrow when the local Independent team and the Connersville Athletics get together at the South Main Street grounds.

THE RABBIT SEASON IS ON



WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON—The latest immigration problem suggests the perhaps beneficial expedient of setting up immigration boundaries along state lines.

Congress probably would not consider such a proposal seriously, but it has possibilities.

Mexican immigration is the problem referred to. The present quota law, designed to restrict the great hegira of aliens from Europe, does not apply to Mexico or Canada. Mexican immigration has been increasing rapidly. Official records show the arrival of more than 800,000, including 66,766 for 1927, and large numbers are supposed to have crossed the border unofficially.

* * *

LABOR unions, Secretary of Labor Davis and certain congressmen have urged the inclusion of Mexicans within the quota law and the question will come before the next Congress in the form of the Box bill, which proposes to place Mexican immigration on the same quota basis as European immigration.

There will be a fight over the bill, however, with areas along the Mexican border lined up against it.

The sentiment behind the Box bill is based on the fact that Mexican laborers are penetrating the country to northern steel mills and railroads and doing the heavy jobs formerly performed by European workers.

Their work is mostly unskilled labor, but they are offering the same competition which the quota laws erected against Europeans was supposed to stop and their presence presumably aggravates unemployment conditions caused by our own surplus of labor. If the 1924 quota law were applied to Mexico, immigration from that country would be cut to about 3 per cent of the present figure.

* * *

THE opposition to the Box bill and similar proposals comes most vigorously from California and South Texas, which areas depend importantly on Mexican labor for agricultural purposes. Every year, during the fruit and vegetable season, thousands of Mexicans cross the border from Sonora and Lower California to help harvest the crops. Some of them stay and work as farm hands the year around. The demand of this section for labor is a seasonal demand, and Mexico offers the cheapest, if not the only source.

Business men and representatives of agricultural and horticultural interests, banded together in the Association for Development of California, have appointed a commission to come to Washington and oppose the Box bill. The South Texas Chamber of Commerce was expected to take some similar action at its meeting in Brownsville Nov. 14 and 15.

* * *

SECRETARY DAVIS has suggested limiting Mexican immigration to "skilled workers of the kind needed throughout the United States," which he believes could be effected by extension of the quota law, but this hardly would solve the question for the border farmers who may be joined in their attitude by some industrial employers of unskilled labor.

THINGS WORTH KNOWING

Science has exploded the fascinating myth about Mars, said to be inhabited by a race of super-men who covered the planet with a network of huge canals. Astronomers have concluded that Mars is a world of frigid nights, warmer days and parched soil where only the hardiest of plants may grow and earth man would pant for breath due to the scarcity of oxygen compared with the earth.

A Duluth, Minn, man has 700 bank accounts of $1 each in thirty-one states, and his ambition is to make it one thousand. Since 1923 he has been hiking about the country and deposits a dollar in every town where he earns any money.

Experts doubt whether television will enable people to sit by their firesides and view distant events as they happen. Enormous obstacles are said to stand in the way of practical television for everybody, chief of which is the speed difficulty.

THE FIRST OF THE MONTH

(From The Indianapolis Star)

When the first of the month comes
And all bills come due,
Then I would rather be
Out in some far off country.
Mother says, "Let's pay; it's the
Only thing to do out our way.

Then comes the telephone bill,
The phone is so noisy, I can't sleep;
There goes the telephone
Just about the time I want to sleep.
Mother says, "Let's pay; it's the
Only thing to do out our way.

Let's not forget the water bill,
From the golden color of the water
Father believes it is cider;
Mother knows it is, because it's hard;
Mother says, "Let's pay; it's the
Only thing to do out our way.

But the last bill that is due is the gas,
Father says, "Shut the doors,
The weak thing might take cold in the draft."
Now the reader can readily see why
Mother says, "Let's pay; it's the
Only thing to do out our way.

SAVED BY BELL TWICE

Indianapolis, Nov. 16—(U.P.)—Howard Mitchell, Cincinnati lightweight was knocked out twice by Danny Budd of Terre Haute last night, but still finished the fight. A solid left sent Mitchell down in the fourth round, but the bell saved him and his seconds managed to revive him for the fifth. Another of Budd's lefts landed in the fifth, and again Budd went down and again the bell saved him. He came out strong for the sixth and last round and finished standing up.

Gary—Mrs. Mary Salaj waited from April to October and still sees nothing funny about her husband, John Salaj, tossing the furniture out of their home April 1 last and leaving. She is sueing for a divorce.

PLENTY OF OPPOSITION FOR OPENING SET-TO

Coach Phillips and His Roarin' Lions Preparing For Waldron Here Friday Night

GRIDDERS OUT THIS WEEK

Coach Phillips and his Roarin' Lions are expecting plenty of opposition for the opening game of the season Friday night with Waldron high school, and the members of the team now out for practice will have to work hard in order to win the opening game.

Waldron comes here in midseason form, having played in a number of games, and with their victory over Shelbyville last week well in mind, while Rushville will take the floor as a new team, and some of the members will have to shake the grid dust off their feet and forget the rough part encountered on the football field.

Coach Phillips will not be in any position to designate a starting line-up, but has several who look good in practice, including Sheplar, Cross, Newbold, Leach and Brecheisen as forwards; Haywood, McCrory, Readle and F. Elliott at center and a bunch of guards, including Sadler, G. Elliott, Levi, Wagoner and others who are included in the squad and who are trying for places on some of the teams. The curtain raiser Friday night to the Waldron game will be played between candidates for the second team, in an effort to pick out the best players for future games.

were creating the greatest catastrophe in our history.

"With its operations in the Mississip Valley floods—during the period of which it provided relief in 14 other disasters in 11 States—the Red Cross stepped into a new era of service. It showed the people not only that it is manned and equipped to handle large disasters, unaided; but that in extraordinary catastrophes it provides a nucleus about which may be formed an organization capable of meeting the needs of a disaster of any imaginable proportions.

"Furthermore, through the machinery of its nation-wide network of Chapters, the Red Cross can obtain the funds required for relief in great disasters in larger amounts and quicker time than they can be obtained in any other way.

"There is ample evidence that the demands for Red Cross services in the past few years have increased. The devotion of the people to the Red Cross must now be expressed in a larger membership, if the organization is to continue to meet its obligations in full measure.

"Five million members should be the very minimum of the expression of the confidence of the people in their Red Cross.

"A few years ago I stated that the American people should give the Red Cross a membership of ten million. My experience in directing the relief activities in the Mississippi Valley confirms my opinion. I sincerely trust that the five million goal may be but a step toward an even more generous support of the humanitarian service of the Red Cross."

BIG LEAGUE OWNERS TO CONSIDER CHANGES

Hope to Avoid in Future Some "Embarrassing Situations" That Have Developed This Year

HORNSBY CASE IS RECALLED

Chicago, Nov. 16—(U.P)—Major league baseball club owners will meet in New York, December 15, to consider rule changes designed to eliminate "embarrassing situations."

Among the "embarrassing situations" of recent times is the case of Rogers Hornsby, who was sold from St. Louis to New York, after he had acquired considerable interest in the St. Louis club.

A league ruling prevents any player who owns stock in one club from playing with another and considerable argument occurred before Hornsby finally was allowed to play.

Another amendment reported for consideration is one which would prohibit any players, property of one club, from negotiating with another club.

Laque is said to have incurred the ire of major league magnates by attempting to negotiate with the Giants for his services, while he belonged to Cincinnati.

Umpires, under another amendment are prohibited from scouting or aiding clubs in obtaining players.

Another ruling would prohibit club owners, stockholders or officials from lending money to players or umpires.

CLASSED AS UTILITIES

Indianapolis, Nov. 16—(U.P)—Cities operating municipally owned light and power plants are classed as public utilities, in the opinion of Attorney General Arthur L. Gilliom, and such must secure the approval of the public service commisiosn for any bonds they may issue to increase their service.

ACCIDENT IS FATAL

Fort Wayne, Ind., Nov. 16—(U.P)—Donald Mowry, three, died here today as a result of injuries received in an automobile accident Sunday.

WOULD BE BOSS

With Jack McCallister due to depart as boss of the Cleveland Indians, Dame Rumor is very active in predicting his successor. Art Fletcher, former Phillies' pilot and last year coach of the New York Yankees, is being mentioned prominently for the job.

ON THE SIDELINES

(By United Press)

Chicago—With Captain Ken Rouse in his best condition since the Michigan battle, Chicago's hopes to defeat Wisconsin Saturday have been considerably brightened. However, Ben Greenebaum, lineman, is out as a result of an injured arm.

Evanston, Ill—Determined to close the season by defeating Iowa, Northwestern's football team is optimistic for the first time in several weeks. The optimism is due to the return to the lineup of all but three of the regulars who have been out with injuries.

Bloomington, Ind.—The most determined week of Indiana's football practice is under way. Purdue is the opponent Saturday and defeat of Purdue makes the Indiana season a fair success, regardless of the outcome of other games.

Lafayette, Ind—With the battle for the "old oaken bucket" scheduled Saturday, the Purdue football team is hard at work in preparation for Indiana. The Boilermakers are firm in their belief that the Hoosiers will go down in defeat.

Ann Arbor, Mich—Announcement that Joe Gambis, fullback, will not be able to play Saturday, has forced Michigan to abandon plans for a plunging attack against Minnesota. A defense to stop Minnesota plunging is sought.

Iowa City, Ia—Happier than an Iowa team has been in two years, the Hawkeyes are preparing to annex their final game of the season—from Northwestern Saturday. The team emerged practically unscatched from its defeat of Wisconsin last week.

Minneapolis, Minn—Driven indoors by a snowstorm, the Gophers have confined themselves to practice on signals. Perfection of an offense to defeat Michigan Saturday is one of the principal tasks of the coaches.

Champaign, Ill—Defense against Ohio State plays is the major part of the work in the Illinois camp this week. Doug Mills, sophomore back, who was called home by the death of his father last week, has returned to school and will be in the Buckeye game.

Columbus—Coach "Doc" Wilce put his regulars through a strenuous scrimmage today in prepartion for Illinois here Saturday. Wilce, who has been under severe criticism this year, would like to wind up his Big Ten schedule with a victory, if possible.

South Bend—The 2nd and 3rd Irish teams were expected to bear the brunt of work in the Drake game Saturday but Coach Rockne wasn't letting the regulars off practice entirely. A light scrimmage, in which some of the first team will participate, was expected to be held today.

Madison, Wis—Coach Thistlethwaite started pointing his Wisconsin University eleven today for the last game of the season with the Maroons at Chicago Saturday. The men reported in fair shape and went about the business of practice grimly, bearing in mind the unexpected defeat at the hands of Iowa last Saturday. Wisconsin and Chicago games are traditional for their closeness and hard play.

Columbus—Two ways of saying "Bye, Bye, Blackbird," are in vogue here. To scare away the birds which gather in trees near residences and making themselves obnoxious by their chatter, one man places a bell in a tree to which is attached a string which he pulls to ring the bell. Another places a firecracker on a long fishing pole, lights the fuse and raises it into a tree.

ARLINGTON

Mr. and Mrs. Leb Winters and daughter have returned to their home in Oklahoma after viisting relatives and friends here.

FIRST MOVE ON APPEAL

Indianapolis, Nov. 16—(U.P)—The first step in the appeal of the conviction of former Mayor John L. Duvall for violation of the corrupt practices act, to the supreme court, was taken today when a bill of exceptions was filed with special Judge Cassius C. Shirley. The bill avers the court refused to include instructions offered by defense attorneys when instructing the jury.

THINK FIRE ACCIDENTAL

Indianapolis Nov. 16—(U.P)—Although they have gathered evidence indicating the Graystone Apartment Hotel fire in which eight persons perished Sunday may have been incendiary, authorities today asserted their belief that it was accidental. Deputy Fire Marshal George Coogan said his opinion the fire was accidental was not changed by developments.

TRAIN KILLS WATCHMAN

Indianapolis Nov. 16—(U.P)—J. K Butler, 65, a crossing watchman, while flagging an Eastbound Big Four railroad train today stepped in front of a westbound train and was killed.

Muncie—Arnold Sollars, 17, was fined $5 and costs to which was added a 30-day jail suspended sentence here on conviction of assault and battery upon Russ W. Moore, 71, who has given him a home since he was 11 months old. Moore said the boy became angry when reprimanded for staying out all night and attacked him with a piece of stove wood.

MOTORMAN IS IMPRISONED

Indianapolis Street Car Leaves Tracks, Injuring Four

Indianapolis, Nov. 16—(U.P)—A battering ram was used by firemen to tear apart the vestibule of an East Michigan street car last night and rescue the motorman, Ivory Campbell, 27, who was imprisoned inside when the car jumped the track.

The car left the track at a turn, plunged up the sidewalk and stopped against a two story frame house which it partly demolished. Campbell and three of the passengers on the car were injured. Campbell suffered a fractured leg. The other victims were Mrs. Lillian Fry, 48; Mrs. Charity Suber 44, negress, and Miss Galatea Holland, 17. All except Miss Holland were seriously hurt.

Campbell believed that wet rails and temporary failure of the brakes to take hold was responsible for the accident. He said he was not going very fast, but the speed was sufficient to skid the car over the wet rails.

ALLEGED ROBBER HELD

Bedford, Ind., Nov. 15—(U.P)—Charles Bowling, 27, wanted in connection with a recent robbery at Gosport and arrested by Bedford police last night, was turned over to Sheriff Lucas Owens of Owens county today. He was arrested because he was driving an automobile with false license plates.

AUTO THIEF SENTENCED

Bedford, Ind., Nov. 16—(U.P)—Wilbur Parson, 31, of Shoals, began serving a term of one to eight years in the Michigan City state prison today. He was sentenced following his conviction on a charge of grand larceny in circuit court late yesterday, growing out of an auto theft.

There were eight members and four guests present.

NEW INTERNAL REMEDY ENDS AGONY OF PILES

At Last Relief Permanent Quick Without Salve Or Suppositories

THOUSANDS AVOIDING OPERATION FOR PILES

Everyone knows that piles and hemorhoids are caused by swollen dilated veins. A famous chemist asked himself one day: "Why can't I coat a pill with a substance impervious to gastric juices so it will pass through the stomach into the bowels and then dissolve into a healing, soothing liquid to reach the innermost parts—allay the pain and irritation—help nature banish piles and hemoroids in a complete and permanent way?

His research brought results. Thousands of tests prove that no matter how long or how severely one has suffered they may go about relieving their condition in a simple, scientific, harmless fashion without the use of oldtime salves, suppositories, or operations.

"For years I suffered terribly with piles. Could not work, stand up or lay down in comfort. I got discouraged as nothing helped me. At last our druggist got in these mervelous new pills. I got relief in one ay and was all cured in five days with no trace of piles since," declared one of the many thousands who have used Colac Pile Pills, Mrs. John Quinlan, Glen Falls, N. Y.

Even delicate old men and women troubled with piles, sit, walk and sleep in comfort without pain in a few hours in many instances and report complete relief in a few days. Doctors endorse this harmless, effective internal way. Anyone may get the same results. Colac Pile Pills are made in the world's largest laboratory of finest ingredients. Certainly no one, young or old, should suffer another day. Just a couple pills with swallow of water at meal time for a few days. Leading druggists in this and other towns are featuring them.

OWES FREEDOM TO SHERLOCK

Oscar Slater (above) will be freed and the charge of murder on which he was imprisoned for 17 years will be dropped following a year's fight in the man's behalf by Sir Arthur Conan Doyle, creator of Sherlock Holmes. Slater, arrested after circumstantial evidence indicated the slaying of an aged woman in a Glasgow flat was his work, was found guilty and imprisoned. His criminal record also stood against him. Doyle took up the case a year ago and using the same methods of deduction and analysis his famous character used in the detective stories, clearly established that Slater could not have committed the crime.

ELEVEN VIOLATORS SOUGHT AT MUNCIE

Eight of Remaining Muncie Writs Left Over From Federal Roundup Last Saturday

CONSPIRACY IS HINTED

Muncie, Ind., Nov. 15—(U.P.)—U. S., dry agents here today were still seeking 11 alleged liquor law violators for whom federal warrants have been issued. It is understood eight of the writs are those remaining from the big round-up of bootleggers here Saturday, and the additional three were issued following evidence given when 41 of the persons arrested were arraigned at Indianapolis yesterday. No additional arrests have been made.

Few of the 41 prisoners taken to Indianapolis as result of the raids, had returned to Muncie today. Those returning had little to say but seemed interested in reports that the federal grand jury will be asked to conduct an investigation of the local administration in an effort to prove a conspiracy existed here to defeat the dry laws.

Meanwhile Muncie ministers, through their organization, the Delaware county ministerial association endorsed the action of George L. Winkler, prohibition administrator, in conducting the raids, and pledged their support to Joe H. Davis, prosecuting attorney, and the federal forces in their drive to stamp out bootlegging in the county.

Owners of cigar stores and poolrooms where card playing has been permitted lately, were notified by police yesterday that their tables must be stacked.

Good Books Week

Reviews of New Books Received at Rushville Public Library And On View This Week, By Miss Mary Sleeth, Librarian.

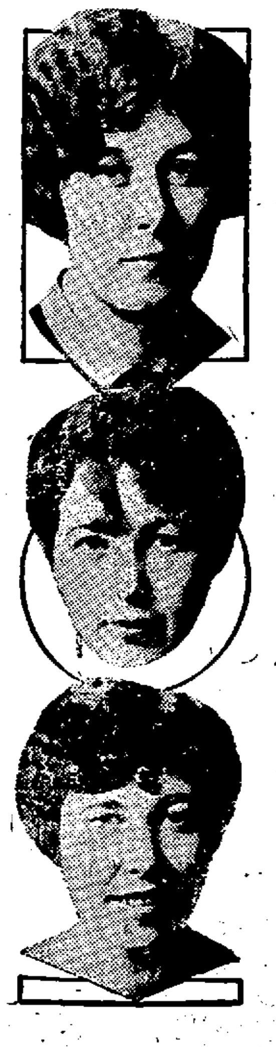
"Mother India" by Katherine Mayo. You will want to read this interesting book for the picture it gives of Indian society. You will be horrified and torn by the account of suffering beyond your imagination. and may be overcome by a sense of hopelessness and melancholy. But anyone who is interested in social, religious, or political questions will find this book very worth his while to read.

"We" by Charles A. Lindbergh. You will not expect to find a piece of literature in this book, but you will enjoy it for the simple way in which this grand story of young courage and determination and achievement is told. This book might well become a fixture on a boy's book shelf.

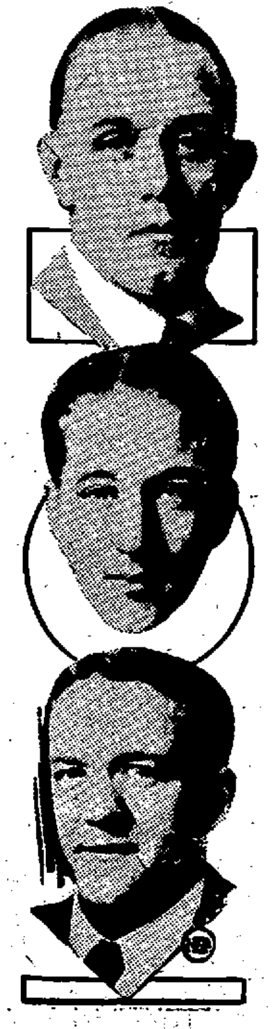
"The Grandmothers," by Glenway Wescott. This is a book the critics think you ought not to miss. It is an exploration in human values, of an American family—a story so varied, so rich, so dramatic in its creation of American life that readers of any age will find themselves in it and of it to a remarkable degree. This story of a typical American family is reconstructed by the grandson from reminiscenses, keepsakes, and daguerreotype albums of the generations before. The 1927-28 Harper Prize was unanimously given to this book.

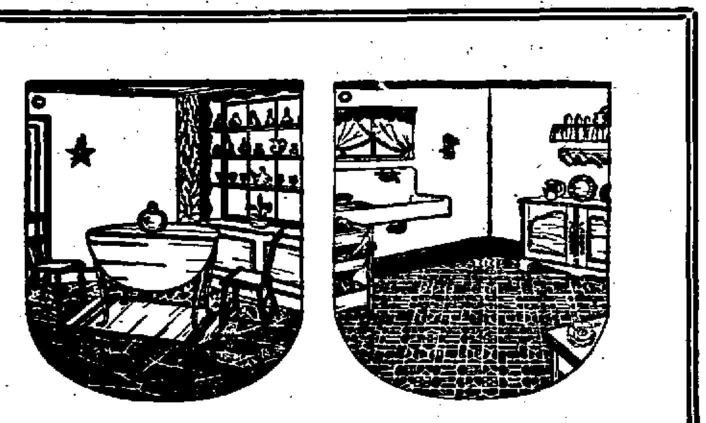
William Allen White says: "'Rebellion' is at last the God-awful truth about the possessive father. Ever since Jephtha, that particular old devil has been getting away with his meanness unscathed. Mateel Home Farnham has exposed him for the fraud he is. What a story she has told: a new story; modern, simple enough, but gorgeous in its homely reality." "Rebellion" is the story of Jacqueline Burrell, impetuous, wholesome, impatient of restraint, and of her father who representing the older generation, walls his daughter about with a love that, in its intensity, becomes a tyranny. On this theme is built a drama of the inevitable revolt of one generation from that which precedes it. Mateel Howe Farnham is the daughter of E. W. Howe, the famous editor and publicist of Atchinson, Kansas. This book was selected as the best of thirteen hundred manuscripts in a recent prize contest similar to that which produced "Wild Geese" two years ago.

These Brothers Are In-Laws, Too



Here's a tri-partite marital union for you! It wasn't long after Berenice Abbott (top, left) was married to Lawrence Frank (top, right), that her sister, Gladys (center, left) married his brother, George (center, right). Now it is announced that Gladys' and Berenice's sister Helen (below) will be married to Lawrence's and George's brother Thomas, just as soon as Thomas has finished his schooling. They all live in Bellingham, Wash.





Less Work—More Beauty With Linoleum Floors

When you can cover your rooms with a floor-covering that will not only greatly lessen the work of keeping your floors clean, but will add to the beauty of your rooms, it is not surprising that linoleum—particularly

BLABON'S Linoleum

has been increasing so rapidly in popularity as a floor-covering for every room in the home. Blabon floors are

Waterproof—Spotproof—Mothproof Easy to Clean—Sanitary

and therefore require but little attention to keep them clean. As they will wear for years, they are most economical.

Blabon patterns have been designed with a view to supplying that universal demand for more color and increased beauty in floor-coverings.

We want you to see the many colorful Blabon patterns we are displaying and let us tell you how much it will cost to cover any of your floors.

A Star With a Trademark

Recognized all over the world by his trademark, for such it may rightfully be termed, and the only one of the radio stars of the present day who can truthfully say that he has a recognized trademark. One need not even mention his name to the radio fan, but all one need say is "Here 'Tis" and "Yours Very Truly" and they will immediately tell you that's "Little Jack Little."

His voice is magnetic over the air and when he makes his first personal appearance in Rushville Saturday at the Princess theatre, you will find that his personality is just as magnetic. If you were to see him on the street he might be mistaken for a young college youth. Jack is only twenty-five years of age and is an Iowa University boy.

Out of twenty-eight hundred request wires in one week while at W. O. C. Davenport, Iowa, Mr. Little states that over fifty percent were requests for his own idea and masterpiece "The Old Broken Down Saloon Piano." This will also be offered in his local appearance here.

"We're All Gamblers," Princess

Discovered—an extra's idea of Paradise.

It was an accidental discovery made during a study of realism. No extensive research work preceded it.

The art director for Paramount was recently given specifications which called for an elaborate night club. He hung purple and gold drapes here and there, built a platform for a ten-piece jazz orchestra, arranged tables about an oval dancing floor, strung vari-colored lights—and turned it over to James Cruze.

Mr. Cruze furnished the Paradisial touch. He asked that all the tables be equipped with chicken, pieces of steak, celery, olives, salads—and all the other things that go to make up an elaborate New Year's eve dinner in a night club. He wanted the extra players to seem natural. A kitchen was installed with flaming chafing dishes, tables of desserts, etc.

Two hundred extras in evening clothes were summoned one morning for a scene in Thomas Meighan's new picture "We're All Gamblers" which shows at the Princess theatre Thursday and Friday. While they were receiving instructions they gazed absentmindedly toward the tables and the busy chefs.

A request that they take their seats was followed by a stampede. Chicken, salads and other viands began to disappear as if by magic even before the electricians had finished setting the lights.

"Wait, wait!" shouted Mr. Cruze. "You're supposed to eat only when the cameras are grinding."

His instructions were lost in the rattle of knives and forks. It was noon and the chefs were exhausted before the scene was finished. An atmosphere of perfect bliss spread over the place when the coffee and cigarettes arrived. Paradise had temporarily settled over that corner of Hollywood.

TERMS OF SALE

The sale will be made subject to the approval of the Rush Circuit Court, and for not less than two-thirds of the full appraised value of said real estate. The purchase money shall be paid one-third cash, one-third in six months and one-third in twelve months, or all cash, at the option of the purchaser. The unpaid balance of the purchase price to be secured by a first mortgage on said real estate sold, to be evidenced by promissory notes, bearing six per cent. interest from date of purchase.

GENERAL DESCRIPTION

This real estate comprises an eighty-acre farm, with house and good barn, and other out-buildings, composed of very fertile and productive soil, a part of the holdings of the late Samuel L. Innis, and lies adjoining the town of Homer, on the east.

It is on a fine highway, and within one-half mile of a good grain market, stores, garage, school and other conveniences.

It is a fertile and productive farm, splendidly located, and well adapted to general farming.

All inquiries will be cheerfully answered by the undersigned.

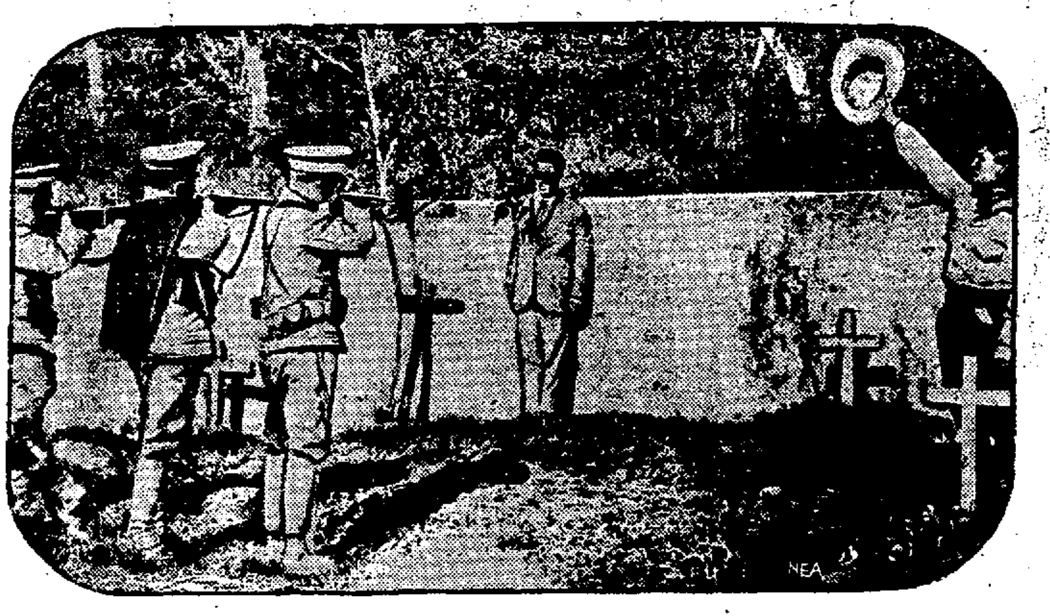
THE EXECUTION OF GEN. GOMEZ



A second after this picture was taken, Col. Manuel Limon (right) signaled with his hat, gave the command to fire, and Gen. Arnulfo Gomez (blindfolded) fell to his death with seven bullets in his body. The scene is the cemetery at Teocelo, Mexico, where the general, regarded as a formidable presidential possibility in Mexico next year, was executed as a revolutionist. Gomez had been pursued for weeks by federal troops.

MONTGOMERY EXPECTED TO QUALIFY THURSDAY

Special Judge In Conspiracy Trial of Gov. Jackson and Others To Hear Quash Motions

GARRETT OFF WITH FINES

Indianapolis, Nov. 16—(U.P.)—Special judge Oscar H. Montgomery will reach Indianapolis tomorrow to qualify to sit in the trial of Gov. Ed Jackson, George V. Coffin and Robert I. Marsh on an indictment charging them with conspiracy to commit a felony and attempting to offer a birbe. He is expected to hear arguments on a defense motion to quash the indictment.

The motion is expected to be based not alone on grounds of technical deficiency. The argument probably will center around the contention that if a felony was committed, prosecution is outlawed by the statute of limitations.

One of the men in public office against whom affidavits were filed as a result of the Marion county grand jury inquiry into Ku Klux Klan influence and corrupt politics in the state was arraigned yesterday —Earl S. Garrett, former market master. He pleaded guilty to three affidavits charging him with "grafting" on stand holders in the city market. Special judge Jackson Carter fined him $50 on ech of the affidavits.

Garrett, second man to be convicted as a result of the inquiry, was accused of collecting an illegal fee of $50 from David Shane for a lease transfer; an illegal fee of $50 from Emma Vincent on a lease transfer, and an illegal fee of $5 from William Helpern, an electrician, for getting him a wiring contract.

Former mayor John L. Duvall recently was found guilty of violating the corrupt practices act. He has taken an appeal. Four city councilmen are among those indicted.

WINS WINDOW DISPLAY PRIZE

A. D. Abbott Awarded $50 and First Place In National Contest

Arthur D. Abbott, display manager of the E. R. Casady dry goods store in this city, has been awarded first prize of $50 in a national contest for the best window display of women's underwear made by the company offering $150 in prizes. The display contest was put on throughout the United States during the week of October 24-29 and the contestants competed by sending photographs of their windows.

Mr. Abbott's window won special praise from the judges, who commented on the use of a thermometer and a card sign and the manner in which the window was used to convey the thought that the underwear was warm and should be worn in cold weather. The thermometer register zero and "icicles" hung from the ceiling.

Aged Man Spends 13 Hours At the Bottom of a Well

Kokomo, Ind., Nov. 16—(U.P.)—Oliver Roth, 72, is recuperating today after spending 13 hours at the pottom of a well which caved in on him as he was cleaning it out. Rescuers dug frantically to reach him, working after dark in the glare of automobile headlights, but were impeded by two other cave-ins which blocked their progress. Just after midnight today they rescued him. Roth was thoroughly exhausted but suffered no other ill effects.

National guardsmen guarded the mouth of the well during the work to keep it clear of the great crowd which gathered. Roads in all directions were jammed for miles by automobiles of the curious.

CORN BORER CASE APPEALED

State Entomologist Certifies Case to Higher Court

Indianapolis, Nov. 16—(U.P.)—The appellate court will be called upon to determine the right of state authorities to clean up corn fields infested with the corn borer when the case of Frank N. Wallace, state entomogist, vs., Charles Dohner, DeKalb county farmer, comes up for trial in the near future. Wallace brought the matter into the jurisdiction of the higher court yesterday by filing a transcript of the evidence in the case, which seeks to set aside a permanent restraining order to prevent state and federal authorities from cleaning up infested stalks on the Dohner farm.

The case originated when men under the direction of Wallace went onto the Dohner farm and disposed of infested stalks in an effort to prevent spread of the borer. The entomoligist was made defendant in a suit brought by Dohner and the permanent restraining order was granted by Judge Will Endicott.
